NOTES ON NEWS OF THE DAY.

THE French elections have passed by, and Boulanger is again defeated. France is furnishing daily some new evidence of growing fitness for a republican system.

HON. TITUS SHEARD is Herkimer county's choice for Senator in the twenty-third district. A first-class man, we hope he'll get here if Senator Arnold does not wish to go back.

THERE is a town in West Virginia which has 350 inhabitants and 189 dogs. The same town cast 188 Democratic votes at the last election. The dogs are in the majority, but refuse to take up the issue of a "white man's government."

GEORGE W. DICKINSON and Leander Fitts are the Republican nominees for the Assembly in the first and second Cayuga districts respectively. Mr. Fitts proved himself one of the most intelligent and useful members last year. Mr. Dickinson is new to public life.

JAMES BARKER, the Tammany leader who kicked James Herman so that he will die, in a New York saloon Sunday night, has not been arrested, though several policemen were at the place where the injury was inflicted. It would be an almost useless proceeding to bring him to trial, in the face of the easy escapes of Croker, Purroy and other Tammany criminals. His presence and influence will be all the more valuable in Democratic circles if Herman dies.

THE exports from the United States during August of breadstuffs, provisions, cattle, petroleum and cotton, amounted to $37,217,377. This is an increase over August, 1888, of more than $8,000,000, and is the largest export of these articles since 1883. Our Democratic political economists have told us that "tariff reform" alias free trade was indispensable to the increase of our foreign trade. The truth appears to be that what was needed was a Republican administration.

GIBLIN, who murdered Mrs. Goeltz in New York because her husband refused to surrender a counterfeit bill which he tried to pass at his store, is relying for executive clemency upon a woman who confesses herself a perjurer. At Giblin's trial Fanny Nelson swore that she saw Giblin fire a shot at Mrs. Goeltz. Yesterday, before a referee, she confessed that she had committed perjury, and swore that she did not see the shooting. There was a good deal of the same sort of swearing by other witnesses. Giblin has obtained a political pull since his conviction.

THE Philadelphia *Times* suggests ex-Gov. Hartranft of Pennsylvania for Pension Commissioner. It says of him: "He is not a babbler; he was a heroic fighter and never a talker, and he would enter the office enjoying the generous confidence of every honest soldier of the land. He would doubtless administer the laws with as liberal fidelity to the soldiers as fidelity to law would justify, and he would never embarrass the administration by shooting off his mouth." This is the sort of man the President is looking for. But Hartranft has been Governor and Customs Collector, and he might not be happy in a position subordinate to Secretary Noble.

THE Philadelphia *Record* informs us that 15,000 Germans have left the county of Leavenworth since the enactment of Prohibition in Kansas, impelled to make the exodus because "indulgence in their innocent social pleasures is punished as a heinous crime." Probably to-morrow we shall read in the *Record* that Prohibition is a failure and that high license is much more successful in restricting those "innocent social pleasures." But if 15,000 people have left Leavenworth county which contained 32,000 all told in 1880, on account of prohibition unenforced, what can have been the effect of well enforced high license upon the population of Philadelphia?

POLICE JUDGE PATTERSON of New York yesterday fined Patrick Delaney $10 for being drunk and placed him under $1,000 bonds for brutally kicking Charles Gallagher, a boy of 12 years, who is now in a critical condition at his home. Later in the day Alderman McCarthy of Brooklyn came to New York and interviewed the Judge. At the end of the conversation the latter remounted the bench and ordered Delaney to be arraigned again. "I recall that fine of $10," said he, "and I also reduce the bonds to $500." Then the Alderman signed Delaney's bond, and he was turned loose so drunk that he could hardly stand, to kick some other child to death. This is metropolitan politics of the Democratic variety.

WILKIE COLLINS, the last of the great English novelists, is dead, aged 65. He was stricken with paralysis on the 30th of June, and his death has since been expected almost daily. He died at his mansion in Gloucester Place, London, at 10:35 yesterday morning. His demise will create a new demand for his works, and give them an immense boom, as was the case with Dickens and Thackeray. Mr. Collins's pen was as prolific as Dickens's. He stands next to that great writer in the affections of the people, and probably next to Thackeray in the intellectual quality of his productions. His most popular novels were probably "Armadale," "The Moonstone" and "The Woman in White." He inherited great wealth to which he added much by his literary labors. He was a bachelor.

THERE are numerous candidates for the nominations to be conferred at the convention to-morrow. For Secretary of State there are Martin W. Cook of Rochester, John I. Gilbert of Franklin and Charles Hauscit of New York: for Comptroller, John W. Vrooman of Herkimer, John H. Beckwith of Plattsburg and David Cromwell of White Plains; for State Treasurer, Gen. Stephen I. Moffatt of Plattsburg; for Attorney General, James C. Dennison of Fulton, James M. Varnum of New-York, and John Van Voorhis of Rochester; for State Engineer and Surveyor, Verplanck Colvin of Albany; for Judge of the Court of Appeals, Haight of Buffalo, Cope of Rochester, Coxe of Utica, and Landon of Schenectady. Each of these gentlemen believes that 1889 is a good year for Republican candidates.

REPUBLICANS AT SARATOGA.

STATE LEAGUE CLUBS.

The Convention was Called To Order this Afternoon.

GENERAL TELEGRAPH NEWS

REPUBLICANS GATHERING TO-DAY.

An Outline of What May be Done at Saratoga To-Morrow.

By Telegraph to The Freeman.

SARATOGA, Sept. 24.—The State Republican Convention, which will meet here at noon to-morrow, though perhaps exciting, bids fair to be one of the most rapid in the matter of prompt transaction of business held in years. Already the town is fast assuming an appearance of bustle and a large quota of delegates from the interior counties of the State is on hand, and by nightfall indications are that a majority of the delegates will have arrived. The morning trains brought the New York, Rochester and Buffalo delegations and the scenes around the United States are those of an ordinary convention. The various leaders have already arrived and were busy all morning arranging their part of the programme.

The Convention of the League of Republican Clubs, which met at noon to-day, was instrumental in drawing a majority of Convention delegates from all over the State. Their work was short and brisk and nothing in the shape of a platform was formed as they are desirous of waiting for the action of the State Convention. They do not assume to put forward a platform.

What threatens to be a retarding factor in the smooth progress of the State Convention labors is the probability of a dispute over the settlement of the contested seats. The Executive Committee of the State Committee, has decided to meet in the United States Hotel at 4 o'clock this afternoon. They will make a report to the State Committee, and the actions of the Committee on Contested Seats will, of course, be shaped and guided by the latter's recommendations.

The reigning topic of discussion to-day is the probable candidates for the State offices. As yet no man has been mentioned in connection with the Temporary and Permanent Chairmanship, as these offices are perhaps viewed in the light of secondary importance. For Secretary of State the names of Charles A. Hauselt, of New-York City; Ex-Senator John I. Gilbert, of Malone, and Martin I. Cook, of Rochester, are mentioned. The names of David Cromwell, of West-Chester, and George H. Beckwith, of Plattsburg, seem to be the only ones mentioned in connection with the candidacy for Comptroller, while for Attorney-General James A. Dennison, of Johnstown, and Assemblyman Joseph M. Varnum, of New-York, and ex-Congressman John VanVoorhis, of Rochester, are prominent candidates. Verplan Colvin, of Albany, evidently has the field to himself for State Engineer. For Judge of the Court of Appeals there are two candidates—Judge Albert Haight, of Buffalo, and Judge Alfred Cleveland Coxe, of Utica, nephew of Roscoe Conkling. No name has so far been put forward as a candidate for State Treasurer, though the probabilities are that a candidate for the office will loom up later. The platform, of course, will be the Convention and whatever planks will be inserted. Ballot Reform and High License will surely appear.

Among the prominent arrivals at the States are General N. M. Curtus, the St. Lawrence veteran; Hon. John A. Quackenbush, of Schaghticoke; E. A. Hartshorn, of Troy; Mapleton Chance, of New-York; J. H. Hathorn, J. V. H. Barker, of Brooklyn; Edwin Fleming, of Buffalo, and Coroner Ford Eidmann, of New-York. John F. Plummer, S. V. R Cruger, O. G. Warren, Dwight Lawrence, John W. Jacobus, Sheridan Shook, Colonel J. A. Dennison, J. Sloat Fassett, General John N. Knapp, J. P. Foster.

THE STATE LEAGUE.

By Telegraph to The Freeman.

SARATOGA, N. Y., Sept 24.—The State League of Republican Clubs was rather slow in assembling. High noon had been decided as the hour, but it was somewhat after when the delegates began to saunter in groups toward the Town Hall.

It is reported that Colonel E. A. McAlpin, of Westchester, will be the next President of the League, and W. M. Pierson, or Saratoga, Secretary.

The Executive Committee had met at 10:30 A. M. at the States and smoothed the way for the League meeting. Among the prominent delegates in the Convention were National Secretary Humphries and Hon. Mapleton Chance, of New-York; E. A. Hartshorn, of Troy; Colonel E. A. McAlpin, of Westchester, and John Jacobus, of New-York.

The Convention was called to order at 12:30 o'clock by President Hefford. The Rev. Joseph Carrie, of Saratoga, ushered in the proceedings by a prayer, which was followed by the roll-call by Secretary James Lehamann. The mention of the names of James G. Blaine and of Harrison and Morton clubs of New-York elicited a good deal of applause. The roll call, with subsequent changes, occupied over an hour. President Hefford then delivered his address of welcome in which he reviewed the growth and progress of the League since its inception. He said among other things: "When in 1887 your Executive Committee was first organized, it took up what at that time seemed to be an almost hopeless task, viz: Of giving sufficient aid and support to the Republican State Committee as should result in the overthrow of the opposition from the citadel of power, in which they were so strongly intrenched, and placing the electoral vote of the State of New-York on the side of protection and equal rights. With that determination and energy, which has since characterized its efforts, it succeeded in thoroughly organizing and interesting the young men of the State in club work. Much of the work heretofore has been left until after the campaign opened had been completed and at the opening the impliments of political warfare had been provided and the intricacies of their use mastered. In the latter part of the campaign your Committee and officers found that a large part of the detail work, incident to the organization of the League, had been accomplished, showing that throughout the State some 1,400 clubs had been organized, 250 of which had become permanent, and joined the League; hence, during the last two months of the campaign the attention of all was directed to the work in their respective local organizations and the work at headquartes left in the hands of the Sub-Executive Committee and its efficient Chairman, with a result which now forms a part of the history of the Republican party of this State. It is evident that many who have joined the League movement have failed to fully comprehend the object and scope of the League work, which is to infuse into the young men of the country an ambition to attain a higher and broader knowledge of what pertains to our country's welfare. A fair illustration of the success of the League movement may be drawn by a careful study and comparison of the last and former election returns from the counties in this State, where the League organizations were the strongest as well as by a look at the result in the States of Maryland and Missouri, where most efficient work has been done, and a large gain made in our Congressional representation and in the State of Delaware, which is honored for the first time in her history by being represented in the United States Senate by a Republican. There should be in the routine of every young man's life, a day when he can give his time and thought to the study and consideration of some of the manifold problems effecting our everyday experience. To-day the calendar of the Republican League of the State of New-York calls our attention not only to the past and future of our League, but to the political wants and well-being of our country and the Republican party's relation thereto. In the former epoch, in the beginning the leaders and advance thinkers were few and the struggle seemingly hopeless, but with the rapid stride of events, aided by the wisdom and guiding hand of our martyred President, the end in view was soon attained. To-day the leaders are many and the issues clearly defined with the rank and file only too anxious to solve aright the problem in political economy with which we are confronted and to array themselves on the side of the party whose principles and policy bid fair to give the largest measure of peace and prosperity to the whole country. With these and the further fact in view, namely that the policy of the Government on questions of tariff and taxation is a part of the environment of, and effects every business man's interests it would seem that now is the most auspicious time in which to interest the young business men of the country in political questions, and to aid them in forming an opinion that shall result in adopting the principles and policy of the Republican party. Much more effective work can be done in this line now, when there is time for reflection and study and stand the heat of a political campaign when much that is said upon the stump and by the press is looked upon with a good deal of misgiving and with the idea that it is simply put forth for political effect. We feel that in the light of history we are justified in asserting that the Republican party is far more eager in its defense of ideas and principles than of men and that the reverse is true as to the Democratic party. The Republican party is, and always has been, practically united as to the principles it has advocated, and its candidates have always been true exponents of those principles, while the Democratic party has never been thoroughly united on any principle, unless it was in its opposition to the Republican party, and the measure it brought forth, looking to the preservation of the Union, and the commercial prosperity of the country; and in one Presidential canvass in their eagerness to attain the power they sought, they appealed to the people under the leadership of a man who was and always had been a Republican. The record of the Republican party during the past 30 years challenges our admiration, and to-day it commands the confidence of the country, hence we do not feel called upon to defend her principles, the people having voiced their approval in no uncertain sound and they have seen them inter-woven into the marvelous growth and prosperity of this great country and applied only in upholding the public faith and credit. The League realizing the responsibility, which the present position of the party brings forth seeks only of its adherents an enthusiasm born of public confidence in its aims and purposes, and calls upon the young men of the country to put forth an effort to overcome the baneful influence of personal politics, and the disposition to wrangle over unimportant matters, and to put forth their best efforts to make the party the champion not of this or that person or faction, but of a principle. We are free to assert our belief that all thinking Democrats concur with us now in congratulating the country on the fact that the Republican party was in power long enough to place upon the statute books acts which resulted in the preservation of the Union, abolishing slavery, establishing the national bank system, directing the resumption of specie payments and rapidly reducing the public debt, and turning over the reins of Government to the opposition long enough for them to examine the books, and take a look at the surplus, yet while those measures were pending, the Democratic party opposed them step by step as though their party life and the salvation of the country depended upon their defeat. It is impossible to take up the consideration of the political situation in this country, and to lightly brush aside the race question which is disturbing the peace and quiet of the Southern States. This question must be adjusted on a just and equitable basis, or it will try to the uttermost our political system."

The speaker continued at length, predicting that the Southern States would be the battle-ground at the next election

The speech of the retiring Executive took nearly half an hour in delivery, and at its close the report of Secretary Lehanan was read.

THE STOCK AND MONEY MARKET.

Financial Doings on Wall-Street To-Day—The Closing Quotations.

By Telegraph to The Freeman.

NEW-YORK, Sept. 24.—The stock market this morning showed greater stagnation than on any previous day for weeks. The only relief from the monotony was afforded by the activity and sharp movements of Northern Pacific preferred and Sugar Trusts. Louisville & Nashville was also specially active, but its movements were confined to a narrow range. Sugar Trust opened at 101⅝ and quickly dropped to 100. The stocks of the regular list sympathized and prices were there were any dealings shaded off slightly. Northern Pacific preferred soon developed marked strength, rising ¾ to 75¼.

TRIED TO KILL THE CZAR.

The Latest Attempt was Made At Copenhagen.

RATHER A CLOSE SHAVE.

Where Many People, it is Said, Were in Peril.

GENERAL BOULANGER.

PLOTTING AGAINST THE CZAR'S LIFE.

A Chest of Dynamite Exploded, But the Crowned Head was Uninjured.

By Cable to The Freeman.

LONDON, Sept. 24.—A story reaches here from St. Petersburg on what appears to be creditable authority that just previously to the Czar's departure for Copenhagen a chest of dynamite exploded at the Peterhof station The station was badly wrecked and a railway signal man was killed. It is fully believed that it was intended to have the explosion take place when the Czar passed through the station on his way to the train, but that through some miscalculation it occurred before the time of His Majesty's departure.

MAY HAVE PROVED A CATASTROPHE.

A Sloping Hillside, Where 100,000 Persons Were Seated, Moved Six Inches.

By Telegraph to The Freeman.

MILWAUKEE, Sept. 24.—The startling information is made public that a great catastrophe during the National Encampment was averted by mere chance. The sloping hillside at Juneau Park, where 100,000 people were seated on the night of the sham naval battle, was moved six inches. Had it not been for the stone road bed of the railway at the foot of the hill, the whole side of the bluff would have slipped into the Lake, carrying the people with it. The ground at the bottom of the hill is bulged and at the top there is a deep fissure where the sod and earth have been torn apart. Before the seats were erected many civil engineers had doubts about the safety of the bank.

GENERAL BOULANGER'S ELECTION.

Will It be Annulled by the Chamber of Deputies?—Reconciliation.

By Cable to The Freeman.

LONDON, Sept. 24.—The Paris correspondent of the *Times* says: "The Chamber will annul the election of Boulanger by a sweeping majority. Leon Say seems destined for the grand task of conciliation and of collecting the governable elements into a compact majority."

In an interview to-day General Boulanger said he had no hope of his party having a majority in the new Chamber of Deputies. He had not, however, lost faith in the future. The Government had everywhere stolen votes with raven like characteristics. The Republican majority would prove unmanageable, and the country would soon be calling him to power.

Explosion Causes a Panic.

By Telegraph to The Freeman.

ELMIRA, N. Y., Sept. 24.—Gas that had leaked into the building from a defective street main exploded this morning in the basement of J. Richardson's big shoe factory and did $500 damage. Engineer Pier and Foreman Keener were seriously burned. The employes became panic-stricken and many girls leaped from the second story windows to the roof of a stable from which they were assisted to the street. One hundred and forty men left the building by the fire escapes. The fire department put out the fire with little trouble.

The Flack Case.

By Telegraph to The Freeman.

NEW-YORK, Sept. 24.—The *Mail and Express* says the Grand Jury has completed its work in the Flack case, and indictments have been found against James A. Flack, William S. Flack, Mrs. Raymond, *alias* Susan Reynolds, Justice Ambrose Monell and Referee Joseph D Weeks. The Jury practicably recommends Judge Bookstaver's impeachment.

NOTES ON NEWS OF THE DAY.

THE French elections have passed by, and Boulanger is again defeated. France is furnishing daily some new evidence of growing fitness for a republican system.

HON. TITUS SHEARD is Herkimer county's choice for Senator in the twenty-third district. A first-class man, we hope he'll get here if Senator Arnold does not wish to go back.

THERE is a town in West Virginia which has 350 inhabitants and 189 dogs. The same town cast 188 Democratic votes at the last election. The dogs are in the majority, but refuse to take up the issue of a "white man's government."

GEORGE W. DICKINSON and Leander Fitts are the Republican nominees for the Assembly in the first and second Cayuga districts respectively. Mr. Fitts proved himself one of the most intelligent and useful members last year. Mr. Dickinson is new to public life.

JAMES BARKER, the Tammany leader who kicked James Hernan so that he will die, in a New York saloon Sunday night, has not been arrested, though several policemen were at the place where the injury was inflicted. It would be an almost useless proceeding to bring him to trial, in the face of the easy escapes of Croker, Purroy and other Tammany criminals. His presence and influence will be all the more valuable in Democratic circles if Hernan dies.

THE exports from the United States during August of breadstuffs, provisions, cattle, petroleum and cotton, amounted to $37,217,377. This is an increase over August, 1888, of more than $8,000,000, and is the largest export of these articles since 1883. Our Democratic political economists have told us that "tariff reform" alias free trade was indispensable to the increase of our foreign trade. The truth appears to be that what was needed was a Republican administration.

GIBLIN, who murdered Mrs. Goeltz in New York because her husband refused to surrender a counterfeit bill which he tried to pass at his store, is relying for executive clemency upon a woman who confesses herself a perjurer. At Giblin's trial Fanny Nelson swore that she saw Giblin fire a shot at Mrs. Goeltz. Yesterday, before a referee, she confessed that she had committed perjury, and swore that she did not see the shooting. There was a good deal of the same sort of swearing by other witnesses. Giblin has obtained a political pull since his conviction.

THE Philadelphia *Times* suggests ex-Gov. Hartranft of Pennsylvania for Pension Commissioner. It says of him: "He is not a babbler; he was a heroic fighter and never a talker, and he would enter the office enjoying the generous confidence of every honest soldier of the land. He would doubtless administer the laws with as liberal fidelity to the soldiers as fidelity to law would justify, and he would never embarrass the administration by shooting off his mouth." This is the sort of man the President is looking for. But Hartranft has been Governor and Customs Collector, and he might not be happy in a position subordinate to Secretary Noble.

THE Philadelphia *Record* informs us that 15,000 Germans have left the county of Leavenworth since the enactment of Prohibition in Kansas, impelled to make the exodus because "indulgence in their innocent social pleasures is punished as a heinous crime." Probably to-morrow we shall read in the *Record* that Prohibition is a failure and that high license is much more successful in restricting those "innocent social pleasures." But if 15,000 people have left Leavenworth county which contained 32,000 all told in 1880, on account of prohibition unenforced, what can have been the effect of well enforced high license upon the population of Philadelphia?

POLICE JUDGE PATTERSON of New York yesterday fined Patrick Delaney $10 for being drunk and placed him under $1,000 bonds for brutally kicking Charles Gallagher, a boy of 12 years, who is now in a critical condition at his home. Later in the day Alderman McCarthy of Brooklyn came to New York and interviewed the Judge. At the end of the conversation the latter remounted the bench and ordered Delaney to be arraigned again. "I recall that fine of $10," said he, "and I also reduce the bonds to $500." Then the Alderman signed Delaney's bond, and he was turned loose so drunk that he could hardly stand, to kick some other child to death. This is metropolitan politics of the Democratic variety.

WILKIE COLLINS, the last of the great English novelists, is dead, aged 65. He was stricken with paralysis on the 30th of June, and his death has since been expected almost daily. He died at his mansion in Gloucester Place, London, at 10:35 yesterday morning. His demise will create a new demand for his works, and give them an immense boom, as was the case with Dickens and Thackeray. Mr. Collins's pen was as prolific as Dickens's. He stands next to that great writer in the affections of the people, and probably next to Thackeray in the intellectual quality of his productions. His most popular novels were probably "Armadale," "The Moonstone" and "The Woman in White." He inherited great wealth to which he added much by his literary labors. He was a bachelor.

THERE are numerous candidates for the nominations to be conferred at the convention to-morrow. For Secretary of State there are Martin W. Cook of Rochester, John I. Gilbert of Franklin and Charles Hausch of New York; for Comptroller, John W. Vrooman of Herkimer, John H. Beckwith of Plattsburg and David Cromwell of White Plains; for State Treasurer, Gen. Stephen I. Moffatt of Plattsburg; for Attorney General, James C. Dennison of Fulton, James M. Varnum of New-York, and John Van Voorhis of Rochester; for State Engineer and Surveyor, Verplanck Colvin of Albany; for Judge of the Court of Appeals, Haight of Buffalo, Cope of Rochester, Coxe of Utica, and Landon of Schenectady. Each of these gentlemen believes that 1889 is a good year for Republican candidates.

STATE LEAGUE CLUBS.

The Convention was Called To Order this Afternoon.

GENERAL TELEGRAPH NEWS

REPUBLICANS GATHERING TO-DAY.

An Outline of What May be Done at Saratoga To-Morrow.

By Telegraph to The Freeman.

SARATOGA, Sept. 24.—The State Republican Convention, which will meet here at noon to-morrow, though perhaps exciting, bids fair to be one of the most rapid in the matter of prompt transaction of business held in years. Already the town is fast assuming an appearance of bustle and a large quota of delegates from the interior counties of the State is on hand, and by nightfall indications are that a majority of the delegates will have arrived. The morning trains brought the New York, Rochester and Buffalo delegations and the scenes around the United States are those of an ordinary convention. The various leaders have already arrived and were busy all morning arranging their part of the programme.

The Convention of the League of Republican Clubs, which met at noon to-day, was instrumental in drawing a majority of Convention delegates from all over the State. Their work was short and brisk and nothing in the shape of a platform was formed as they are desirous of waiting for the action of the State Convention. They do not assume to put forward a platform.

What threatens to be a retarding factor in the smooth progress of the State Convention labors is the probability of a dispute over the settlement of the contested seats. The Executive Committee of the State Committee, has decided to meet in the United States Hotel at 4 o'clock this afternoon. They will make a report to the State Committee, and the actions of the Committee on Contested Seats will, of course, be shaped and guided by the latter's recommendations.

The reigning topic of discussion to-day is the probable candidates for the State offices. As yet no man has been mentioned in connection with the Temporary and Permanent Chairmanship, as these offices are perhaps viewed in the light of secondary importance. For Secretary of State the names of Charles A. Hauselt, of New-York City; Ex-Senator John I. Gilbert, of Malone, and Martin I. Cook, of Rochester, are mentioned. The names of David Cromwell, of West Chester, and George H. Beckwith, of Plattsburg, seem to be the only ones mentioned in connection with the candidacy for Comptroller, while for Attorney-General James A. Dennison, of Johnstown, and Assemblyman Joseph M. Varnum, of New-York, and ex-Congressman John VanVoorhis, of Rochester, are prominent candidates. Verplan Colvin, of Albany, evidently has the field to himself for State Engineer. For Judge of the Court of Appeals there are two candidates—Judge Albert Haight, of Buffalo, and Judge Alfred Cleveland Coxe, of Utica, nephew of Roscoe Conkling. No name has so far been put forward as a candidate for State Treasurer, though the probabilities are that a candidate for the office will loom up later. The platform, of course, will be the Convention and whatever planks will be inserted. Ballot Reform and High License will surely appear.

Among the prominent arrivals at the States are General N. M. Curtus, the St. Lawrence veteran; Hon. John A. Quackenbush, of Schaghticoke; E. A. Hartshorn, of Troy; Mapleton Chance, of New-York; J. H. Hathorn, J. V. H. Barker, of Brooklyn; Edwin Fleming, of Buffalo, and Coroner Ford Eidmann, of New-York. John F. Plummer, S. V. R Cruger, O. G. Warren, Dwight Lawrence, John W. Jacobus, Sheridan Shook, Colonel J. A. Dennison, J. Sloat Fassett, General John N. Knapp, J. P. Foster.

THE STATE LEAGUE.

By Telegraph to The Freeman.

SARATOGA, N. Y., Sept 24.—The State League of Republican Clubs was rather slow in assembling. High noon had been decided as the hour, but it was somewhat after when the delegates began to saunter in groups toward the Town Hall.

It is reported that Colonel E. A. McAlpin, of Westchester, will be the next President of the League, and W. M. Pierson, or Saratoga, Secretary.

The Executive Committee had met at 10:30 A. M. at the States and smoothed the way for the League meeting. Among the prominent delegates in the Convention were National Secretary Humphries and Hon. Mapleton Chance, of New-York; E. A. Hartshorn, of Troy; Colonel E. A. McAlpin, of Westchester, and John Jacobus, of New-York.

The Convention was called to order at 12:30 o'clock by President Hefford. The Rev. Joseph Carrie, of Saratoga, ushered in the proceedings by a prayer, which was followed by the roll-call by Secretary James Lehamann. The mention of the names of James G. Blaine and of Harrison and Morton clubs of New-York elicited a good deal of applause. The roll call, with subsequent changes, occupied over an hour. President Hefford then delivered his address of welcome in which he reviewed the growth and progress of the League since its inception. He said among other things: "When in 1887 your Executive Committee was first organized, it took up what at that time seemed to be an almost hopeless task, viz: Of giving sufficient guid and support to the Republican State Committee as should result in the overthrow of the opposition from the citadel of power, in which they were so strongly intrenched, and placing the electoral vote of the State of New York on the side of protection and equal rights. With that determination and energy, which has since characterized its efforts, it succeeded in thoroughly organizing and interesting the young men of the State in club work. Much of the work heretofore has been left until after the campaign opened had been completed and at the opening the impliments of political warfare had been provided and the intricacies of their use mastered. In the latter part of the campaign your Committee and officers found that a large part of the detail work, incident to the organization of the League, had been accomplished, showing that throughout the State some 1,400 clubs had been organized, 250 of which had become permanent, and joined the League; hence, during the last two months of the campaign the attention of all was directed to the work in their respective local organizations and the work at headquartes left in the hands of the Sub-Executive Committee and its efficient Chairman, with a result which now forms a part of the history of the Republican party of this State. It is evident that many who have joined the League movement have failed to fully comprehend the object and scope of the League work, which is to infuse into the young men of the country an ambition to attain a higher and broader knowledge of what pertains to our country's welfare. A fair illustration of the success of the League movement may be drawn by a careful study and comparison of the last and former election returns from the counties in this State, where the League organizations were the strongest as well as by a look at the result in the States of Maryland and Missouri, where most efficient work has been done, and a large gain made in our Congressional representation and in the State of Delaware, which is honored for the first time in her history by being represented in the United States Senate by a Republican. There should be in the routine of every young man's life, a day when he can give his time and thought to the study and consideration of some of the manifold problems effecting our everyday experience. To-day the calendar of the Republican League of the State of New-York calls our attention not only to the past and future of our League, but to the political wants and well-being of our country and the Republican party's relation thereto. In the former epoch, in the beginning the leaders and advance thinkers were few and the struggle seemingly hopeless, but with the rapid stride of events, aided by the wisdom and guiding hand of our martyred President, the end in view was soon attained. To-day the leaders are many and the issues clearly defined with the rank and file only too anxious to solve aright the problem in political economy with which we are confronted and to array themselves on the side of the party whose principles and policy bid fair to give the largest measure of peace and prosperity to the whole country. With these and the further fact in view, namely that the policy of the Government on questions of tariff and taxation is a part of the environment of, and effects every business man's interests it would seem that now is the most auspicious time in which to interest the young business men of the country in political questions, and to aid them in forming an opinion that shall result in adopting the principles and policy of the Republican party. Much more effective work can be done in this line now, when there is time for reflection and study and stand the heat of a political campaign when much that is said upon the stump and by the press is looked upon with a good deal of misgiving and with the idea that it is simply put forth for political effect. We feel that in the light of history we are justified in asserting that the Republican party is far more eager in its defense of ideas and principles than of men and that the reverse is true as to the Democratic party. The Republican party is, and always has been, practically united as to the principles it has advocated, and its candidates have always been true exponents of those principles, while the Democratic party has never been thoroughly united on any principle, unless it was in its opposition to the Republican party, and the measure it brought forth, looking to the preservation of the Union, and the commercial prosperity of the country; and in one Presidential canvass in their eagerness to attain the power they sought, they appealed to the people under the leadership of a man who was and always had been a Republican. The record of the Republican party during the past 30 years challenges our admiration, and to-day it commands the confidence of the country, hence we do not feel called upon to defend her principles, the people having voiced their approval in no uncertain sound and they have seen them inter-woven into the marvelous growth and prosperity of this great country and applied only in upholding the public faith and credit. The League realizing the responsibility, which the present position of the party brings forth seeks only of its adherents an enthusiasm born of public confidence in its aims and purposes, and calls upon the young men of the country to put forth an effort to overcome the baneful influence of personal politics, and the disposition to wrangle over unimportant matters, and to put forth their best efforts to make the party the champion not of this or that person or faction, but of a principle. We are free to assert our belief that all thinking Democrats concur with us now in congratulating the country on the fact that the Republican party was in power long enough to place upon the statute books acts which resulted in the preservation of the Union, abolishing slavery, establishing the national bank system, directing the resumption of specie payments and rapidly reducing the public debt, and turning over the reins of Government to the opposition long enough for them to examine the books, and take a look at the surplus, yet while those measures were pending, the Democratic party opposed them step by step as though their party life and the salvation of the country depended upon their defeat. It is impossible to take up the consideration of the political situation in this country, and to lightly brush aside the race question which is disturbing the peace and quiet of the Southern States. This question must be adjusted on a just and equitable basis, or it will try to the uttermost our political system."

The speaker continued at length, predicting that the Southern States would be the battleground at the next election

The speech of the retiring Executive took nearly half an hour in delivery, and at its close the report of Secretary Lehanan was read.

THE STOCK AND MONEY MARKET.

Financial Doings on Wall-Street To-Day—The Closing Quotations.

By Telegraph to The Freeman.

NEW-YORK, Sept. 24.—The stock market this morning showed greater stagnation than on any previous day for weeks. The only relief from the monotony was afforded by the activity and sharp movements of Northern Pacific preferred and Sugar Trusts. Louisville & Nashville was also specially active, but its movements were confined to a narrow range. Sugar Trust opened at 101⅝ and quickly dropped to 100. The stocks of the regular list sympathized and prices were there were any dealings shaded off slightly. Northern Pacific preferred soon developed marked strength, rising ½ to 75¼.

TRIED TO KILL THE CZAR.

The Latest Attempt was Made At Copenhagen.

RATHER A CLOSE SHAVE.

Where Many People, it is Said, Were in Peril.

GENERAL BOULANGER.

PLOTTING AGAINST THE CZAR'S LIFE.

A Chest of Dynamite Exploded, But the Crowned Head was Uninjured.

By Cable to The Freeman.

LONDON, Sept. 24.—A story reaches here from St. Petersburg on what appears to be creditable authority that just previously to the Czar's departure for Copenhagen a chest of dynamite exploded at the Peterhof station The station was badly wrecked and a railway signal man was killed. It is fully believed that it was intended to have the explosion take place when the Czar passed through the station on his way to the train, but that through some miscalculation it occurred before the time of His Majesty's departure.

MAY HAVE PROVED A CATASTROPHE.

A Sloping Hillside, Where 100,000 Persons Were Seated, Moved Six Inches.

By Telegraph to The Freeman.

MILWAUKEE, Sept. 24.—The startling information is made public that a great catastrophe during the National Encampment was averted by mere chance. The sloping hillside at Juneau Park, where 100,000 people were seated on the night of the sham naval battle, was moved six inches. Had it not been for the stone road bed of the railway at the foot of the hill, the whole side of the bluff would have slipped into the Lake, carrying the people with it. The ground at the bottom of the hill is bulged and at the top there is a deep fissure where the sod and earth have been torn apart. Before the seats were erected many civil engineers had doubts about the safety of the bank.

GENERAL BOULANGER'S ELECTION.

Will It be Annulled by the Chamber of Deputies?—Reconciliation.

By Cable to The Freeman.

LONDON, Sept. 24.—The Paris correspondent of the *Times* says: "The Chamber will annul the election of Boulanger by a sweeping majority. Leon Say seems destined for the grand task of conciliation and of collecting the governable elements into a compact majority."

In an interview to-day General Boulanger said he had no hope of his party having a majority in the new Chamber of Deputies. He had not, however, lost faith in the future. The Government had everywhere stolen votes with raven like characteristics. The Republican majority would prove unmanageable, and the country would soon be calling him to power.

Explosion Causes a Panic.

By Telegraph to The Freeman.

ELMIRA, N. Y., Sept. 24.—Gas that had leaked into the building from a defective street main exploded this morning in the basement of J. Richardson's big shoe factory and did $500 damage. Engineer Pier and Foreman Keener were seriously burned. The employes became panic-stricken and many girls leaped from the second story windows to the roof of a stable from which they were assisted to the street. One hundred and forty men left the building by the fire escapes. The fire department put out the fire with little trouble.

The Flack Case.

By Telegraph to The Freeman.

NEW-YORK, Sept. 24.—The *Mail and Express* says the Grand Jury has completed its work in the Flack case, and indictments have been found against James A. Flack, William S. Flack, Mrs. Raymond, *alias* Susan Reynolds, Justice Ambrose Monell and Referee Joseph D Weeks. The Jury practicably recommends Judge Bookstaver's impeachment.

NOTES ON NEWS OF THE DAY.

THE French elections have passed by, and Boulanger is again defeated. France is furnishing daily some new evidence of growing fitness for a republican system.

HON. TITUS SHEARD is Herkimer county's choice for Senator in the twenty-third district. A first-class man, we hope he'll get here if Senator Arnold does not wish to go back.

THERE is a town in West Virginia which has 350 inhabitants and 189 dogs. The same town cast 188 Democratic votes at the last election. The dogs are in the majority, but refuse to take up the issue of a "white man's government."

GEORGE W. DICKINSON and Leander Fitts are the Republican nominees for the Assembly in the first and second Cayuga districts respectively. Mr. Fitts proved himself one of the most intelligent and useful members last year. Mr. Dickinson is new to public life.

JAMES BARKER, the Tammany leader who kicked James Hernan so that he will die, in a New York saloon Sunday night, has not been arrested, though several policemen were at the place where the injury was inflicted. It would be an almost useless proceeding to bring him to trial, in the face of the easy escapes of Croker, Purroy and other Tammany criminals. His presence and influence will be all the more valuable in Democratic circles if Hernan dies.

THE exports from the United States during August of breadstuffs, provisions, cattle, petroleum and cotton, amounted to $37,217,377. This is an increase over August, 1888, of more than $8,000,000, and is the largest export of these articles since 1883. Our Democratic political economists have told us that "tariff reform" alias free trade was indispensable to the increase of our foreign trade. The truth appears to be that what was needed was a Republican administration.

GIBLIN, who murdered Mrs. Goeltz in New York because her husband refused to surrender a counterfeit bill which he tried to pass at his store, is relying for executive clemency upon a woman who confesses herself a perjurer. At Giblin's trial Fanny Nelson swore that she saw Giblin fire a shot at Mrs. Goeltz. Yesterday, before a referee, she confessed that she had committed perjury, and swore that she did not see the shooting. There was a good deal of the same sort of swearing by other witnesses. Giblin has obtained a political pull since his conviction.

THE Philadelphia *Times* suggests ex-Gov. Hartranft of Pennsylvania for Pension Commissioner. It says of him: "He is not a babbler; he was a heroic fighter and never a talker, and he would enter the office enjoying the generous confidence of every honest soldier of the land. He would doubtless administer the laws with as liberal fidelity to the soldiers as fidelity to law would justify, and he would never embarrass the administration by shooting off his mouth." This is the sort of man the President is looking for. But Hartranft has been Governor and Customs Collector, and he might not be happy in a position subordinate to Secretary Noble.

THE Philadelphia *Record* informs us that 15,000 Germans have left the county of Leavenworth since the enactment of Prohibition in Kansas, impelled to make the exodus because "indulgence in their innocent social pleasures is punished as a heinous crime." Probably to-morrow we shall read in the *Record* that Prohibition is a failure and that high license is much more successful in restricting those "innocent social pleasures." But if 15,000 people have left Leavenworth county which contained 32,000 all told in 1880, on account of prohibition unenforced, what can have been the effect of well enforced high license upon the population of Philadelphia?

POLICE JUDGE PATTERSON of New York yesterday fined Patrick Delaney $10 for being drunk and placed him under $1,000 bonds for brutally kicking Charles Gallagher, a boy of 12 years, who is now in a critical condition at his home. Later in the day Alderman McCarthy of Brooklyn came to New York and interviewed the Judge. At the end of the conversation the latter remounted the bench and ordered Delaney to be arraigned again. "I recall that fine of $10," said he, "and I also reduce the bonds to $500." Then the Alderman signed Delaney's bond, and he was turned loose so drunk that he could hardly stand, to kick some other child to death. This is metropolitan politics of the Democratic variety.

WILKIE COLLINS, the last of the great English novelists, is dead, aged 65. He was stricken with paralysis on the 30th of June, and his death has since been expected almost daily. He died at his mansion in Gloucester Place, London, at 10:35 yesterday morning. His demise will create a new demand for his works, and give them an immense boom, as was the case with Dickens and Thackeray. Mr. Collins's pen was as prolific as Dickens's. He stands next to that great writer in the affections of the people, and probably next to Thackeray in the intellectual quality of his productions. His most popular novels were probably "Armadale," "The Moonstone" and "The Woman in White." He inherited great wealth to which he added much by his literary labors. He was a bachelor.

THERE are numerous candidates for the nominations to be conferred at the convention to-morrow. For Secretary of State there are Martin W. Cook of Rochester, John I. Gilbert of Franklin and Charles Hauselt of New York; for Comptroller, John W. Vrooman of Herkimer, John H. Beckwith of Plattsburg and David Cromwell of White Plains; for State Treasurer, Gen. Stephen I. Moffatt of Plattsburg; for Attorney General, James C. Dennison of Fulton, James M. Varnum of New-York, and John Van Voorhis of Rochester; for State Engineer and Surveyor, Verplanck Colvin of Albany; for Judge of the Court of Appeals, Haight of Buffalo, Cope of Rochester, Coxe of Utica, and Landon of Schenectady. Each of these gentlemen believes that 1889 is a good year for Republican candidates.

STATE LEAGUE CLUBS.

The Convention was Called To Order this Afternoon.

GENERAL TELEGRAPH NEWS

REPUBLICANS GATHERING TO-DAY.

An Outline of What May be Done at Saratoga To-Morrow.

By Telegraph to The Freeman.

SARATOGA, Sept. 24.—The State Republican Convention, which will meet here at noon to-morrow, though perhaps exciting, bids fair to be one of the most rapid in the matter of prompt transaction of business held in years. Already the town is fast assuming an appearance of bustle and a large quota of delegates from the interior counties of the State is on hand, and by nightfall indications are that a majority of the delegates will have arrived. The morning trains brought the New York, Rochester and Buffalo delegations and the scenes around the United States are those of an ordinary convention. The various leaders have already arrived and were busy all morning arranging their part of the programme.

The Convention of the League of Republican Clubs, which met at noon to-day, was instrumental in drawing a majority of Convention delegates from all over the State. Their work was short and brisk and nothing in the shape of a platform was formed as they are desirous of waiting for the action of the State Convention. They do not assume to put forward a platform.

What threatens to be a retarding factor in the smooth progress of the State Convention labors is the probability of a dispute over the settlement of the contested seats. The Executive Committee of the State Committee, has decided to meet in the United States Hotel at 4 o'clock this afternoon. They will make a report to the State Committee, and the actions of the Committee on Contested Seats will, of course, be shaped and guided by the latter's recommendations.

The reigning topic of discussion to-day is the probable candidates for the State offices. As yet no man has been mentioned in connection with the Temporary and Permanent Chairmanship, as these offices are perhaps viewed in the light of secondary importance. For Secretary of State the names of Charles A. Hauselt, of New-York City; Ex-Senator John I. Gilbert, of Malone, and Martin I. Cook, of Rochester, are mentioned. The names of David Cromwell, of West-Chester, and George H. Beckwith, of Plattsburg, seem to be the only ones mentioned in connection with the candidacy for Comptroller, while for Attorney-General James A. Dennison, of Johnstown, and Assemblyman Joseph M. Varnum, of New-York, and ex-Congressman John VanVoorhis, of Rochester, are prominent candidates. Verplan Colvin, of Albany, evidently has the field to himself for State Engineer. For Judge of the Court of Appeals there are two candidates—Judge Albert Haight, of Buffalo, and Judge Alfred Cleveland Coxe, of Utica, nephew of Roscoe Conkling. No name has so far been put forward as a candidate for State Treasurer, though the probabilities are that a candidate for the office will loom up later. The platform, of course, will be the Convention and whatever planks will be inserted. Ballot Reform and High License will surely appear.

Among the prominent arrivals at the States are General N. M. Curtus, the St. Lawrence veteran; Hon. John A. Quackenbush, of Schaghticoke; E. A. Hartshorn, of Troy; Mapleton Chance, of New-York; J. H. Hathorn, J. V. H. Barker, of Brooklyn; Edwin Fleming, of Buffalo, and Coroner Ford Eidmann, of New-York. John F. Plummer, S. V. R. Cruger, O. G. Warren, Dwight Lawrence, John W. Jacobus, Sheridan Shook, Colonel J. A. Dennison, J. Sloat Fassett, General John N. Knapp, J. P. Foster.

THE STATE LEAGUE.

By Telegraph to The Freeman.

SARATOGA, N. Y., Sept 24.—The State League of Republican Clubs was rather slow in assembling. High noon had been decided as the hour, but it was somewhat after when the delegates began to saunter in groups toward the Town Hall.

It is reported that Colonel E. A. McAlpin, of Westchester, will be the next President of the League, and W. M. Pierson, or Saratoga, Secretary.

The Executive Committee had met at 10:30 A. M. at the States and smoothed the way for the League meeting. Among the prominent delegates in the Convention were National Secretary Humphries and Hon. Mapleton Chance, of New-York; E. A. Hartshorn, of Troy; Colonel E. A. McAlpin, of Westchester, and John Jacobus, of New-York.

The Convention was called to order at 12:30 o'clock by President Hefford. The Rev. Joseph Carrie, of Saratoga, ushered in the proceedings by a prayer, which was followed by the roll-call by Secretary James Lehamann. The mention of the names of James G. Blaine and of Harrison and Morton clubs of New-York elicited a good deal of applause. The roll call, with subsequent changes, occupied over an hour. President Hefford then delivered his address of welcome in which he reviewed the growth and progress of the League since its inception. He said among other things: "When in 1887 your Executive Committee was first organized, it took up what at that time seemed to be an almost hopeless task, viz: Of giving sufficient aid and support to the Republican State Committee as should result in the overthrow of the opposition from the citadel of power, in which they were so strongly intrenched, and placing the electoral vote of the State of New-York on the side of protection and equal rights. With that determination and energy, which has since characterized its efforts, it succeeded in thoroughly organizing and interesting the young men of the State in club work. Much of the work heretofore has been left until after the campaign opened had been completed and at the opening the impliments of political warfare had been provided and the intricacies of their use mastered. In the latter part of the campaign your Committee and officers found that a large part of the detail work, incident to the organization of the League, had been accomplished, showing that throughout the State some 1,400 clubs had been organized, 250 of which had become permanent, and joined the League; hence, during the last two months of the campaign the attention of all was directed to the work in their respective local organizations and the work at headquartes left in the hands of the Sub-Executive Committee and its efficient Chairman, with a result which now forms a part of the history of the Republican party of this State. It is evident that many who have joined the League movement have failed to fully comprehend the object and scope of the League work, which is to infuse into the young men of the country an ambition to attain a higher and broader knowledge of what pertains to our country's welfare. A fair illustration of the success of the League movement may be drawn by a careful study and comparison of the last and former election returns from the counties in this State, where the League organizations were the strongest as well as by a look at the result in the States of Maryland and Missouri, where most efficient work has been done, and a large gain made in our Congressional representation and in the State of Delaware, which is honored for the first time in her history by being represented in the United States Senate by a Republican. There should be in the routine of every young man's life, a day when he can give his time and thought to the study and consideration of some of the manifold problems effecting our everyday experience. To-day the calendar of the Republican League of the State of New-York calls our attention not only to the past and future of our League, but to the political wants and well-being of our country and the Republican party's relation thereto. In the former epoch, in the beginning the leaders and advance thinkers were few and the struggle seemingly hopeless, but with the rapid stride of events, aided by the wisdom and guiding hand of our martyred President, the end in view was soon attained. To-day the leaders are many and the issues clearly defined with the rank and file only too anxious to solve aright the problem in political economy with which we are confronted and to array themselves on the side of the party whose principles and policy bid fair to give the largest measure of peace and prosperity to the whole country. With these and the further fact in view, namely that the policy of the Government on questions of tariff and taxation is a part of the environment of, and effects every business man's interests it would seem that now is the most auspicious time in which to interest the young business men of the country in poltical questions, and to aid them in forming an opinion that shall result in adopting the principles and policy of the Republican party. Much more effective work can be done in this line now, when there is time for reflection and study and stand the heat of a political campaign when much that is said upon the stump and by the press is looked upon with a good deal of misgiving and with the idea that it is simply put forth for political effect. We feel that in the light of history we are justified in asserting that the Republican party is far more eager in its defense of ideas and principles than of men and that the reverse is true as to the Democratic party. The Republican party is, and always has been, practically united as to the principles it has advocated, and its candidates have always been true exponents of those principles, while the Democratic party has never been thoroughly united on any principle, unless it was in its opposition to the Republican party, and the measure it brought forth, looking to the preservation of the Union, and the commercial prosperity of the country; and in one Presidential canvass in their eagerness to attain the power they sought, they appealed to the people under the leadership of a man who was and always had been a Republican. The record of the Republican party during the past 30 years challenges our admiration, and to-day it commands the confidence of the country, hence we do not feel called upon to defend her principles, the people having voiced their approval in no uncertain sound and they have seen them inter-woven into the marvelous growth and prosperity of this great country and applied only in upholding the public faith and credit. The League realizing the responsibility, which the present position of the party brings forth seeks only of its adherents an enthusiasm born of public confidence in its aims and purposes, and calls upon the young men of the country to put forth an effort to overcome the baneful influence of personal politics, and the disposition to wrangle over unimportant matters, and to put forth their best efforts to make the party the champion not of this or that person or faction, but of a principle. We are free to assert our belief that all thinking Democrats concur with us now in congratulating the country on the fact that the Republican party was in power long enough to place upon the statute books acts which resulted in the preservation of the Union, abolishing slavery, establishing the national bank system, directing the resumption of specie payments and rapidly reducing the public debt, and turning over the reins of Government to the opposition long enough for them to examine the books, and take a look at the surplus, yet while those measures were pending, the Democratic party opposed them step by step as though their party life and the salvation of the country depended upon their defeat. It is impossible to take up the consideration of the political situation in this country, and to lightly brush aside the race question which is disturbing the peace and quiet of the Southern States. This question must be adjusted on a just and equitable basis, or it will try to the uttermost our political system."

The speaker continued at length, predicting that the Southern States would be the battle-ground at the next election

The speech of the retiring Executive took nearly half an hour in delivery, and at its close the report of Secretary Lehanan was read.

THE STOCK AND MONEY MARKET.

Financial Doings on Wall-Street To-Day—The Closing Quotations.

By Telegraph to The Freeman.

NEW-YORK, Sept. 24.—The stock market this morning showed greater stagnation than on any previous day for weeks. The only relief from the monotony was afforded by the activity and sharp movements of Northern Pacific preferred and Sugar Trusts. Louisville & Nashville was also specially active, but its movements were confined to a narrow range. Sugar Trust opened at 101⅜ and quickly dropped to 100. The stocks of the regular list sympathized and prices were there were any dealings shaded off slightly. Northern Pacific preferred soon developed marked strength, rising ¾ to 75¾.

TRIED TO KILL THE CZAR.

The Latest Attempt was Made At Copenhagen.

RATHER A CLOSE SHAVE.

Where Many People, it is Said, Were in Peril.

GENERAL BOULANGER.

PLOTTING AGAINST THE CZAR'S LIFE.

A Chest of Dynamite Exploded, But the Crowned Head was Uninjured.

By Cable to The Freeman.

LONDON, Sept. 24.—A story reaches here from St. Petersburg on what appears to be creditable authority that just previously to the Czar's departure for Copenhagen a chest of dynamite exploded at the Peterhof station The station was badly wrecked and a railway signal man was killed. It is fully believed that it was intended to have the explosion take place when the Czar passed through the station on his way to the train, but that through some miscalculation it occurred before the time of His Majesty's departure.

MAY HAVE PROVED A CATASTROPHE.

A Sloping Hillside, Where 100,000 Persons Were Seated, Moved Six Inches.

By Telegraph to The Freeman.

MILWAUKEE, Sept. 24.—The startling information is made public that a great catastrophe during the National Encampment was averted by mere chance. The sloping hillside at Juneau Park, where 100,000 people were seated on the night of the sham naval battle, was moved six inches. Had it not been for the stone road bed of the railway at the foot of the hill, the whole side of the bluff would have slipped into the Lake, carrying the people with it. The ground at the bottom of the hill is bulged and at the top there is a deep fissure where the sod and earth have been torn apart. Before the seats were erected many civil engineers had doubts about the safety of the bank.

GENERAL BOULANGER'S ELECTION.

Will It be Annulled by the Chamber of Deputies?—Reconciliation.

By Cable to The Freeman.

LONDON, Sept. 24.—The Paris correspondent of the *Times* says: "The Chamber will annul the election of Boulanger by a sweeping majority. Leon Say seems destined for the grand task of conciliation and of collecting the governable elements into a compact majority."

In an interview to-day General Boulanger said he had no hope of his party having a majority in the new Chamber of Deputies. He had not, however, lost faith in the future. The Government had everywhere stolen votes with raven like characteristics. The Republican majority would prove unmanageable, and the country would soon be calling him to power.

Explosion Causes a Panic.

By Telegraph to The Freeman.

ELMIRA, N. Y., Sept. 24.—Gas that had leaked into the building from a defective street main exploded this morning in the basement of J. Richardson's big shoe factory and did $500 damage. Engineer Pier and Foreman Keener were seriously burned. The employes became panic-stricken and many girls leaped from the second story windows to the roof of a stable from which they were assisted to the street. One hundred and forty men left the building by the fire escapes. The fire department put out the fire with little trouble.

The Flack Case.

NEW-YORK, Sept. 24.—The *Mail and Express* says the Grand Jury has completed its work in the Flack case, and indictments have been found against James A. Flack, William S. Flack, Mrs. Raymond, *alias* Susan Reynolds, Justice Ambrose Monell and Referee Joseph D Weeks. The Jury practicably recommends Judge Bookstaver's impeachment.

THE STATE CONVENTION.

The Republican State Convention will meet in Saratoga to-morrow, to nominate a ticket and formulate a platform of principles. The convention will do its work with the view and purpose of winning a victory and rescuing the state from the vices of absenteeism and official indifference to duty that prevail in the departments at Albany. The state officers whose terms expire have become distinguished chiefly for absence from office and the performance of the single duty of drawing their salaries. In addition to this the Comptroller and Attorney General stand convicted before the state of gross incompetency and of blunders or something worse that are a scandal to the state. The people are tired of the odor of rascality, venality and disregard for duty and the public interest that pervades the whole official atmosphere at Albany. There is a loud call from every quarter of the state for a campaign organized and directed on the sole idea and determination of turning the rascals out. Victory last fall made the Republican party united, determined and confident. It demonstrated, not only in the Presidential vote, but in that for Congress and Assembly, that it was a large majority in the state. It has seen through the Democratic claim of supremacy based on the vote for Gov. Hill. That vote was obtained, not by Democratic strength, not even by the whisky combination, but by the most reckless trading of every vote that was negotiable. Not only was Cleveland slaughtered, but candidates for Congress, for the Legislature and for local offices, were traded off with equal disregard of party obligations. In Chemung county, where Hill is potent, his majority was 570 greater than Cleveland's, 779 greater than Tuttle's for Congress, and 379 greater than that for Bush for Assembly. The opportunities to apply the trading process are not so great this year, and hence Mr. Hill's chief reliance for success is greatly diminished in value.

The Republican party will enter the field greatly strengthened by the record of clean, honest and prudent administration which has been made for it at Washington. The people have now what they had lacked for a quarter of a century—the opportunity to contrast Republican with Democratic administration of the federal government. Once again the country is relieved from the odor of continuous scandal, from Garlandism, Higginsism and Presidential favoritism for rebel soldiers and undisguised hatred for the veterans of Union. There has been no unpatriotic pension policy, no parading of rebel flags, no Presidential journeys southward to pronounce eulogies upon Calhoun and other teachers of secession and disloyalty. There has been no proclamation that the industries of the country must be slaughtered to draw campaign funds from the pockets of English free traders. The people are pleased with Republican restoration at Washington, and will follow it up with efforts to effect Republican restoration in the state.

The Republican party won in the nation and carried the state last fall on the single issue of protection to American industries. An infinitely more vital issue is presented this fall—the issue of protection to the home from a whisky invasion. The public mind has been slow in waking up to the idea that whatever work is to be done to hold the whisky power in check must be intrusted to the Republican party. That party has not only the strength, but the will, the courage and conscience to do what the people want. It is moving forward step by step, making advances everywhere, and will soon be in position to remand our whisky rulers of to-day to a back seat. Democrats make accusations of hypocrisy because the thing has not been done which a whisky Governor with the veto in his hands will not permit to be done, but the people are not deceived. They know that as surely as a two-thirds majority is elected to the Legislature, not only will a high license law be enacted, but the Prohibition amendment will be submitted to them, thus giving them their choice between two great and effective methods of restriction. On this platform the party can go to the decent and intelligent people of the state in entire confidence, and so surely as decency and intelligence are in the majority over drunkenness, licentiousness, and every form of vice and crime, so surely will they win at the polls.

Good men will of course be placed upon the ticket; the Republican party nominates and elects no other. Never, against a single one of the state officers whom the Republican party has elected and sent to Albany, has there been a scandal raised as rank as that which is now disturbing the dreams of our Democratic Comptroller and Attorney General or any of that large and varied assortment which has brought the integrity of Gov. Hill into question from time to time. The record made by the Republican party in state administration has been absolutely stainless, and upon that record alone it could afford to go to the people again. The Democratic record on the contrary is stained with disloyalty and dishonesty from the days of Seymour to those of Hill, and its only hope of success is in the ignorance that cannot scan this record and the greed and hunger of the great tax-eating and criminal crowd. Each year the line is being more firmly and distinctly drawn between these elements, until decency and honor have at last ranged themselves almost wholly on the Republican side. The battle is to be between these very adverse elements this year. Is it any surprise that the Republican party is sanguine and confident? The work done at Saratoga to-morrow will furnish the starting point of a new and better era in state government.

A NEW SWINDLE.

The Philadelphia *Times* tells of a new and rather audacious swindle which has been set on foot in that city. Its author is Dr. D. M. Lindsay of New York, who is described as a tall slender man of 45 or 50 years old, with long, dark, curly hair, a black mustache, and a florid, weather-beaten face. He has started out agents by the hundred through the outskirts of Philadelphia and the surrounding towns selling the "Mexican Bueno Medica, the Great Malaria and Liver and Kidney Remedy and Blood Purifier," price $1 per bottle. The bottle containing this precious medicine is enclosed in a stiff pasteboard box and a profusion of gorgeous wrappers, in which its virtues as a cure-all are set forth in the most persuasive language. On arriving at Philadelphia he advertised for agents, and set more than a hundred men full of grit and cheek at work immediately. They go into a village or hamlet, gather a crowd, give away the first half-dozen bottles, but soon discover that they cannot continue to do this without impoverishing themselves. Then the dollars pour in, and the purchasers, confident that they have secured a sovereign remedy for all the diseases that can reside in the latitude and climate of Pennsylvania, carry the precious stuff home and put it away without opening, prepared for any emergency of sickness or injury.

But one of the purchasers, Mrs. Mary Hunslinger of Line Lexington, Montgomery county, was so won over by the doctor's representations that she went to him to have a tooth pulled. After he had fractured her jaw by his bungling, she concluded to examine his medicine. On removing the wrappers and opening the pasteboard box, she was surprised to draw forth, not a bottle of life-saving remedy, but a neat little block of pine wood. Dr. Lindsay's great specific is now being used for kindling wood in Palmyra, Riverton, Riverside, Mantua, Flemington and Bordentown. Mrs. Hunslinger has had a warrant issued for the doctor's arrest, but he has been absent for a few days, it being understood that he is working in the New Jersey towns opposite Philadelphia. Strange as it may seem, he has succeeded in stocking the country drug-stores with his wooden blocks. These were worked by means of a decoy bottle containing among other ingredients enough whisky to make it seductive.

The Connecticut Yankees fifty or sixty years ago claimed to find the "Pennsylvania Dutch" a very gullible people. It was among these that they made their largest sales of wooden nutmegs and basswood hams; it is also related that a few wagons mounted on wheels of basswood with sole-leather tires were disposed of, and one conscienceless peddler used to relate how he sold to a good old lady who could hardly speak English a tin bake-oven for a side-saddle, obtaining an enormous price. Whether these yarns are true or not, the account of Dr. Lindsay's performances would seem incredible were it not furnished on the highest authortiy. But there is nothing in relation to which people can be more easily humbugged than medicine or the treatment of sickness. Those who have purchased pine blocks for healing purposes are not more susceptible to humbug than the dupes of Christian Science or the pilgrims to certain shrines.

FARMING IN THE EASTERN STATES.

For years we have been told of the steady decay of New England farm life. The farms were being deserted for a chance at life in the cities by the young men, and for the more fertile lands of the West by those who preferred to cultivate the soil. The passion to get away was so great that farm owners went off without waiting to sell or lease their old lands, and a dozen years ago it was stated that a thousand of these deserted farms could be found in New Hampshire alone, and almost an equal proportion in Maine and Massachusetts. It was not a decay of men or an accumulation of wealth, like that complained of by the poet, but exactly the reverse. Men were accumulating in the cities and wealth was decaying in the country.

But a reaction has set in. A clergyman who has been making a tour of New England states that it is a growing practice with New Englanders who have grown rich in the cities to buy the home farm and send their families to it in summer. They decorate it with handsome buildings and grounds, and stock it with choice fruits and farm animals. Besides, the New England boy who chooses farming has begun to weigh his chances on the old farm against the cyclones, grasshoppers, blizzards and freight charges which often make life a burden in the Western country in spite of the superior productiveness of the soil. Hence farming lands in New England are coming into demand again and appreciating in value.

Much has been written also about the decrease of the rural population of New York, especially in the western and northern part of the state. The complaint is true enough, but it is due to the accumulation of wealth rather than to the decay of the soil. The farmer who gets rich adds to his wealth by absorbing the acres of his less thrifty neighbor. This absorption process, aided by constant improvements in labor-saving machinery, steadily reduces the number of families in the community. But the land-gatherer is prompted in his policy by wise foresight. He realizes that the time must come when his farms will constitute the source of supply and possibly the background and summer resting place of the great city. Agriculture is to become diversified by other employments providing a big army of consumers along the line of every railroad and canal. New York, in consequence of its favorable topographical construction, is to become the outlet and the great railroad thoroughfare for the West. There is no other state in the Union across which a railroad can be laid from the West to the Atlantic without climbing and descending, or tunneling through huge mountains. This fact suffices to indicate the future of New York agriculture and that of New England as well.

PUBLIC OPINION.

The recent imprisonment of two American ladies at Mentone, France, on complaint of a swindling dressmaker, has been atoned for by a formal apology from the French government to the United States and the reprimanding of the officials concerned. This may be sufficient, but it is not poetic atonement. The least that President Carnot could have done to make things really square was to accompany the apology by a set of new dresses from M. Worth with his compliments. After this let not France claim to be polite.—*Philadelphia Times.*

The Grand Jury finds no indictments in the matter of the Assembly ceiling fraud. Well, no one expected that it would. The entire jury system in Albany county is rotten—rotten to the core. Nothing can be expected in the way of juries in a community controlled by one of the worst bands of political pirates that ever infested any portion of the civilized earth. Snaith has been in the hands of his friends and associates.—*Albany Journal.*

"Old Hutch," the Chicago wheat king, was held up by highwaymen a few days ago, who went through his pockets and did not find a cent. But a highwayman who waylaid a laborer in New-York Central Park, was rewarded by a haul of thirteen cents. Thus evidences of the inequality in the distribution of wealth are constantly brought to light.—*Binghamton Republican.*

St. Louis county farmers are as a rule intelligent and well posted, but when 11 of them refrained from lynching a highwayman Tuesday evening because they were under the impression that it took 12 men to make a lynching legal, they displayed a deplorable ignorance of law. Texas or Kentucky vigilants would never have made such a mistake.—*St. Louis Chronicle.*

If the "chivalry" of the South forbids colored men to ride in the same car with white men, common honesty and decency should prohibit Southern railroads from taking colored men's money and selling them tickets for cars out of which they are to be ejected later on.—*Norwich Bulletin.*

Whisky is a good thing for rattlesnake bites, but a poor thing on which to float a party. Mr. Hill may find himself badly bitten by whisky itself.—*Goshen Democrat.*

CURRENT HUMOR.

A young Dakotan, climbing the stairs to an elevated railroad train, accidentally trod on the heel of a Harlem swell. "Scuse me," said the Westerner in a cowboy voice. "Naw, sir. You are insolent. I shall weport you to an hofficer." "I wer' a-goin' ter say," said the Dakotan, "scuse me fer not er steppin' on yer neck," and he slapped down a nickle and boarded a downtown train.

Mr. Madison Streete—Well, hurry up, hurry up, we'll be late to dinner, as usual. Mrs. Madison Streete—But, dear, I can't find the waist to my new dress! Mr. Madison Streete—Probably slipped down a crack somewhere. Wear my silk suspenders; they'll do

"William, my son, how different you appear! Time has changed you." "Mother," returned the boy, "did you ever have a bill that wasn't changed sooner or later?" "No, my son; not since you were born, anyhow."

"Harry," said Maud, "I'm afraid you think I talk too much." "No," said Harry. "if you'll stick to this same gait after we get married I'll be more than satisfied." And then they had to get engaged all over again.

A Chicago bearded woman made a snug fortune out of the show business in about 12 years, and now lives in comfortable luxury with his handsome wife and five beautiful children.

The longest word in the German language is "Mettamidomethlathylmethylbenzyldiamidophenylcarbinol." It is what Bismarck replies when asked: "Is it hot enough for you?"

Mrs. Slimdiet, the landlady—"Mr. Dashaway, let me help you to a little more chicken." Dashaway—"Thank you, madam, but my doctor has ordered me not to overwork myself."

"Am I too late, dear?" he asked as he took off his coat. "No, George; you can never come too late," she said, and George has been wondering just what she meant ever since.

McCorkle—"I see that Sir Edwin Arnold says Ireland has no grievance." McCrackle—"Yes; he made 'Light of Asia,' and now he makes light of Ireland's struggles."

THE STATE CONVENTION.

The Republican State Convention will meet in Saratoga to-morrow, to nominate a ticket and formulate a platform of principles. The convention will do its work with the view and purpose of winning a victory and rescuing the state from the vices of absenteeism and official indifference to duty that prevail in the departments at Albany. The state officers whose terms expire have become distinguished chiefly for absence from office and the performance of the single duty of drawing their salaries. In addition to this the Comptroller and Attorney General stand convicted before the state of gross incompetency and of blunders or something worse that are a scandal to the state. The people are tired of the odor of rascality, venality and disregard for duty and the public interest that pervades the whole official atmosphere at Albany. There is a loud call from every quarter of the state for a campaign organized and directed on the sole idea and determination of turning the rascals out. Victory last fall made the Republican party united, determined and confident. It demonstrated, not only in the Presidential vote, but in that for Congress and Assembly, that it was a large majority in the state. It has seen through the Democratic claim of supremacy based on the vote for Gov. Hill. That vote was obtained, not by Democratic strength, not even by the whisky combination, but by the most reckless trading of every vote that was negotiable. Not only was Cleveland slaughtered, but candidates for Congress, for the Legislature and for local offices, were traded off with equal disregard of party obligations. In Chemung county, where Hill is potent, his majority was 570 greater than Cleveland's, 779 greater than Tuttle's for Congress, and 379 greater than that for Bush for Assembly. The opportunities to apply the trading process are not so great this year, and hence Mr. Hill's chief reliance for success is greatly diminished in value.

The Republican party will enter the field greatly strengthened by the record of clean, honest and prudent administration which has been made for it at Washington. The people have now what they had lacked for a quarter of a century—the opportunity to contrast Republican with Democratic administration of the federal government. Once again the country is relieved from the odor of continuous scandal, from Garlandism, Higginsism and Presidential favoritism for rebel soldiers and undisguised hatred for the veterans of Union. There has been no unpatriotic pension policy, no parading of rebel flags, no Presidential journeys southward to pronounce eulogies upon Calhoun and other teachers of secession and disloyalty. There has been no proclamation that the industries of the country must be slaughtered to draw campaign funds from the pockets of English free traders. The people are pleased with Republican restoration at Washington, and will follow it up with efforts to effect Republican restoration in the state.

The Republican party won in the nation and carried the state last fall on the single issue of protection to American industries. An infinitely more vital issue is presented this fall—the issue of protection to the home from a whisky invasion. The public mind has been slow in waking up to the idea that whatever work is to be done to hold the whisky power in check must be intrusted to the Republican party. That party has not only the strength, but the will, the courage and conscience to do what the people want. It is moving forward step by step, making advances everywhere, and will soon be in position to remand our whisky rulers of to-day to a back seat. Democrats make accusations of hypocrisy because the thing has not been done which a whisky Governor with the veto in his hands will not permit to be done, but the people are not deceived. They know that as surely as a two-thirds majority is elected to the Legislature, not only will a high license law be enacted, but the Prohibition amendment will be submitted to them, thus giving them their choice between two great and effective methods of restriction. On this platform the party can go to the decent and intelligent people of the state in entire confidence, and so surely as decency and intelligence are in the majority over drunkeness, licentiousness, and every form of vice and crime, so surely will they win at the polls.

Good men will of course be placed upon the ticket; the Republican party nominates and elects no other. Never, against a single one of the state officers whom the Republican party has elected and sent to Albany, has there been a scandal raised as rank as that which is now disturbing the dreams of our Democratic Comptroller and Attorney General or any of that large and varied assortment which has brought the integrity of Gov. Hill into question from time to time. The record made by the Republican party in state administration has been absolutely stainless, and upon that record alone it could afford to go to the people again. The Democratic record on the contrary is stained with disloyalty and dishonesty from the days of Seymour to those of Hill, and its only hope of success is in the ignorance that cannot scan this record and the greed and hunger of the great tax-eating and criminal crowd. Each year the line is being more firmly and distinctly drawn between these elements, until decency and honor have at last ranged themselves almost wholly on the Republican side. The battle is to be between these very adverse elements this year. Is it any surprise that the Republican party is sanguine and confident? The work done at Saratoga to-morrow will furnish the starting point of a new and better era in state government.

A NEW SWINDLE.

The Philadelphia *Times* tells of a new and rather audacious swindle which has been set on foot in that city. Its author is Dr. D. M. Lindsay of New York, who is described as a tall slender man of 45 or 50 years old, with long, dark, curly hair, a black mustache, and a florid, weather beaten face. He has started out agents by the hundred through the outskirts of Philadelphia and the surrounding towns selling the "Mexican Bueno Medica, the Great Malaria and Liver and Kidney Remedy and Blood Purifier," price $1 per bottle. The bottle containing this precious medicine is enclosed in a stiff pasteboard box and a profusion of gorgeous wrappers, in which its virtues as a cure-all are set forth in the most persuasive language. On arriving at Philadelphia he advertised for agents, and set more than a hundred men full of grit and cheek at work immediately. They go into a village or hamlet, gather a crowd, give away the first half-dozen bottles, but soon discover that they cannot continue to do this without impoverishing themselves. Then the dollars pour in, and the purchasers, confident that they have secured a sovereign remedy for all the diseases that can reside in the latitude and climate of Pennsylvania, carry the precious stuff home and put it away without opening, prepared for any emergency of sickness or injury.

But one of the purchasers, Mrs. Mary Hunslinger of Line Lexington, Montgomery county, was so won over by the doctor's representations that she went to him to have a tooth pulled. After he had fractured her jaw by his bungling, she concluded to examine his medicine. On removing the wrappers and opening the pasteboard box, she was surprised to draw forth, not a bottle of life-saving remedy, but a neat little block of pine wood. Dr. Lindsay's great specific is now being used for kindling wood in Palmyra, Riverton, Riverside, Mantua, Flemington and Bordentown. Mrs. Hunslinger has had a warrant issued for the doctor's arrest, but he has been absent for a few days, it being understood that he is working in the New Jersey towns opposite Philadelphia. Strange as it may seem, he has succeeded in stocking the country drug-stores with his wooden blocks. These were worked by means of a decoy bottle containing among other ingredients enough whisky to make it seductive.

The Connecticut Yankees fifty or sixty years ago claimed to find the "Pennsylvania Dutch" a very gullible people. It was among these that they made their largest sales of wooden nutmegs and basswood hams; it is also related that a few wagons mounted on wheels of basswood with sole-leather tires were disposed of, and one conscienceless peddler used to relate how he sold to a good old lady who could hardly speak English a tin bake-oven for a side-saddle, obtaining an enormous price. Whether these yarns are true or not, the account of Dr. Lindsay's performances would seem incredible were it not furnished on the highest authority. But there is nothing in relation to which people can be more easily humbugged than medicine or the treatment of sickness. Those who have purchased pine blocks for healing purposes are not more susceptible to humbug than the dupes of Christian Science or the pilgrims to certain shrines.

FARMING IN THE EASTERN STATES.

For years we have been told of the steady decay of New England farm life. The farms were being deserted for a chance at life in the cities by the young men, and for the more fertile lands of the West by those who preferred to cultivate the soil. The passion to get away was so great that farm owners went off without waiting to sell or lease their old lands, and a dozen years ago it was stated that a thousand of these deserted farms could be found in New Hampshire alone, and almost an equal proportion in Maine and Massachusetts. It was not a decay of men or an accumulation of wealth, like that complained of by the poet, but exactly the reverse. Men were accumulating in the cities and wealth was decaying in the country.

But a reaction has set in. A clergyman who has been making a tour of New England states that it is a growing practice with New Englanders who have grown rich in the cities to buy the home farm and send their families to it in summer. They decorate it with handsome buildings and grounds, and stock it with choice fruits and farm animals. Besides, the New England boy who chooses farming has begun to weigh his chances on the old farm against the cyclones, grasshoppers, blizzards and freight charges which often make life a burden in the Western country in spite of the superior productiveness of the soil. Hence farming lands in New England are coming into demand again and appreciating in value.

Much has been written also about the decrease of the rural population of New York, especially in the western and northern part of the state. The complaint is true enough, but it is due to the accumulation of wealth rather than to the decay of the soil. The farmer who gets rich adds to his wealth by absorbing the acres of his less thrifty neighbor. This absorption process, aided by constant improvements in labor-saving machinery, steadily reduces the number of families in the community. But the land-gatherer is prompted in his policy by wise foresight. He realizes that the time must come when his farms will constitute the source of supply and possibly the background and summer resting place of the great city. Agriculture is to become diversified by other employments providing a big army of consumers along the line of every railroad and canal. New York, in consequence of its favorable topographical construction, is to become the outlet and the great railroad thoroughfare for the West. There is no other state in the Union across which a railroad can be laid from the West to the Atlantic without climbing and descending, or tunneling through huge mountains. This fact suffices to indicate the future of New York agriculture and that of New England as well.

PUBLIC OPINION.

The recent imprisonment of two American ladies at Mentone, France, on complaint of a swindling dressmaker, has been atoned for by a formal apology from the French government to the United States and the reprimanding of the officials concerned. This may be sufficient, but it is not poetic atonement. The least that President Carnot could have done to make things really square was to accompany the apology by a set of new dresses from M. Worth with his compliments. After this let not France claim to be polite.—*Philadelphia Times.*

The Grand Jury finds no indictments in the matter of the Assembly ceiling fraud. Well, no one expected that it would. The entire jury system in Albany county is rotten—rotten to the core. Nothing can be expected in the way of juries in a community controlled by one of the worst bands of political pirates that ever infested any portion of the civilized earth. Snaith has been in the hands of his friends and associates.—*Albany Journal.*

"Old Hutch," the Chicago wheat king, was held up by highwaymen a few days ago, who went through his pockets and did not find a cent. But a highwayman who waylaid a laborer in New-York Central Park, was rewarded by a haul of thirteen cents. Thus evidences of the inequality in the distribution of wealth are constantly brought to light.—*Binghamton Republican.*

St. Louis county farmers are as a rule intelligent and well posted, but when 11 of them refrained from lynching a highwayman Tuesday evening because they were under the impression that it took 12 men to make a lynching legal, they displayed a deplorable ignorance of law. Texas or Kentucky vigilants would never have made such a mistake.—*St. Louis Chronicle.*

If the "chivalry" of the South forbids colored men to ride in the same car with white men, common honesty and decency should prohibit Southern railroads from taking colored men's money and selling them tickets for cars out of which they are to be ejected later on.—*Norwich Bulletin.*

Whisky is a good thing for rattlesnake bites, but a poor thing on which to float a party. Mr. Hill may find himself badly bitten by whisky itself.—*Goshen Democrat.*

CURRENT HUMOR.

A young Dakotan, climbing the stairs to an elevated railroad train, accidentally trod on the heel of a Harlem swell. "Scuse me," said the Westerner in a cowboy voice. "Naw, sir. You are insolent. I shall weport you to an hofficer." "I wer' a-goin' ter say," said the Dakotan, "scuse me fer not er steppin' on yer neck," and he slapped down a nickle and boarded a downtown train.

Mr. Madison Streete—Well, hurry up, hurry up, we'll be late to dinner, as usual. Mrs. Madison Streete—But, dear, I can't find the waist to my new dress! Mr. Madison Streete—Probably slipped down a crack somewhere. Wear my silk suspenders; they'll do

"William, my son, how different you appear! Time has changed you." "Mother," returned the boy, "did you ever have a bill that wasn't changed sooner or later?" "No, my son; not since you were born, anyhow."

"Harry," said Maud, "I'm afraid you think I talk too much." "No," said Harry. "If you'll stick to this same gait after we get married I'll be more than satisfied." And then they had to get engaged all over again.

A Chicago bearded woman made a snug fortune out of the show business in about 12 years, and now lives in comfortable luxury with his handsome wife and five beautiful children.

The longest word in the German language is "Mettamidomethlathylmethylbenzyldiamidophenylcarbinol." It is what Bismarck replies when asked: "Is it hot enough for you?"

Mrs. Slimdiet, the landlady—"Mr. Dasha' way, let me help you to a little more chicken." Dashaway—"Thank you, madam, but my doctor has ordered me not to overwork myself."

"Am I too late, dear?" he asked as he took off his coat. "No, George; you can never come too late," she said, and George has been wondering just what she meant ever since.

McCorkle—"I see that Sir Edwin Arnold says Ireland has no grievance." McCrackle—"Yes; he made 'Light of Asia,' and now he makes light of Ireland's struggles."

THE STATE CONVENTION.

The Republican State Convention will meet in Saratoga to-morrow, to nominate a ticket and formulate a platform of principles. The convention will do its work with the view and purpose of winning a victory and rescuing the state from the vices of absenteeism and official indifference to duty that prevail in the departments at Albany. The state officers whose terms expire have become distinguished chiefly for absence from office and the performance of the single duty of drawing their salaries. In addition to this the Comptroller and Attorney General stand convicted before the state of gross incompetency and of blunders or something worse that are a scandal to the state. The people are tired of the odor of rascality, venality and disregard for duty and the public interest that pervades the whole official atmosphere at Albany. There is a loud call from every quarter of the state for a campaign organized and directed on the sole idea and determination of turning the rascals out. Victory last fall made the Republican party united, determined and confident. It demonstrated, not only in the Presidential vote, but in that for Congress and Assembly, that it was a large majority in the state. It has seen through the Democratic claim of supremacy based on the vote for Gov. Hill. That vote was obtained, not by Democratic strength, not even by the whisky combination, but by the most reckless trading of every vote that was negotiable. Not only was Cleveland slaughtered, but candidates for Congress, for the Legislature and for local offices, were traded off with equal disregard of party obligations. In Chemung county, where Hill is potent, his majority was 570 greater than Cleveland's, 779 greater than Tuttle's for Congress, and 379 greater than that for Bush for Assembly. The opportunities to apply the trading process are not so great this year, and hence Mr. Hill's chief reliance for success is greatly diminished in value.

The Republican party will enter the field greatly strengthened by the record of clean, honest and prudent administration which has been made for it at Washington. The people have now what they had lacked for a quarter of a century—the opportunity to contrast Republican with Democratic administration of the federal government. Once again the country is relieved from the odor of continuous scandal, from Garlandism, Higginsism and Presidential favoritism for rebel soldiers and undisguised hatred for the veterans of Union. There has been no unpatriotic pension policy, no parading of rebel flags, no Presidential journeys southward to pronounce eulogies upon Calhoun and other teachers of secession and disloyalty. There has been no proclamation that the industries of the country must be slaughtered to draw campaign funds from the pockets of English free traders. The people are pleased with Republican restoration at Washington, and will follow it up with efforts to effect Republican restoration in the state.

The Republican party won in the nation and carried the state last fall on the single issue of protection to American industries. An infinitely more vital issue is presented this fall—the issue of protection to the home from a whisky invasion. The public mind has been slow in waktng up to the idea that whatever work is to be done to hold the whisky power in check must be intrusted to the Republican party. That party has not only the strength, but the will, the courage and conscience to do what the people want. It is moving forward step by step, making advances everywhere, and will soon be in position to remand our whisky rulers of to-day to a back seat. Democrats make accusations of hypocrisy because the thing has not been done which a whisky Governor with the veto in his hands will not permit to be done, but the people are not deceived. They know that as surely as a two-thirds majority is elected to the Legislature, not only will a high license law be enacted, but the Prohibition amendment will be submitted to them, thus giving them their choice between two great and effective methods of restriction. On this platform the party can go to the decent and intelligent people of the state in entire confidence, and so surely as decency and intelligence are in the majority over drunkeness, licentiousness, and every form of vice and crime, so surely will they win at the polls.

Good men will of course be placed upon the ticket; the Republican party nominates and elects no other. Never, against a single one of the state officers whom the Republican party has elected and sent to Albany, has there been a scandal raised as rank as that which is now disturbing the dreams of our Democratic Comptroller and Attorney General or any of that large and varied assortment which has brought the integrity of Gov. Hill into question from time to time. The record made by the Republican party in state administration has been absolutely stainless, and upon that record alone it could afford to go to the people again. The Democratic record on the contrary is stained with disloyalty and dishonesty from the days of Seymour to those of Hill, and its only hope of success is in the ignorance that cannot scan this record and the greed and hunger of the great tax-eating and criminal crowd. Each year the line is being more firmly and distinctly drawn between these elements, until decency and honor have at last ranged themselves almost wholly on the Republican side. The battle is to be between these very adverse elements this year. Is it any surprise that the Republican party is sanguine and confident? The work done at Saratoga to-morrow will furnish the starting point of a new and better era in state government.

A NEW SWINDLE.

The Philadelphia *Times* tells of a new and rather audacious swindle which has been set on foot in that city. Its author is Dr. D. M. Lindsay of New York, who is described as a tall slender man of 45 or 50 years old, with long, dark, curly hair, a black mustache, and a florid, weather-beaten face. He has started out agents by the hundred through the outskirts of Philadelphia and the surrounding towns selling the "Mexican Bueno Medica, the Great Malaria and Liver and Kidney Remedy and Blood Purifier," price $1 per bottle. The bottle containing this precious medicine is enclosed in a stiff pasteboard box and a profusion of gorgeous wrappers, in which its virtues as a cure-all are set forth in the most persuasive language. On arriving at Philadelphia he advertised for agents, and set more than a hundred men full of grit and cheek at work immediately. They go into a village or hamlet, gather a crowd, give away the first half-dozen bottles, but soon discover that they cannot continue to do this without impoverishing themselves. Then the dollars pour in, and the purchasers, confident that they have secured a sovereign remedy for all the diseases that can reside in the latitude and climate of Pennsylvania, carry the precious stuff home and put it away without opening, prepared for any emergency of sickness or injury.

But one of the purchasers, Mrs. Mary Hunslinger of Line Lexington, Montgomery county, was so won over by the doctor's representations that she went to him to have a tooth pulled. After he had fractured her jaw by his bungling, she concluded to examine his medicine. On removing the wrappers and opening the pasteboard box, she was surprised to draw forth, not a bottle of life-saving remedy, but a neat little block of pine wood. Dr. Lindsay's great specific is now being used for kindling wood in Palmyra, Riverton, Riverside, Mantua, Flemington and Bordentown. Mrs. Hunslinger has had a warrant issued for the doctor's arrest, but he has been absent for a few days, it being understood that he is working in the New Jersey towns opposite Philadelphia. Strange as it may seem, he has succeeded in stocking the country drug-stores with his wooden blocks. These were worked by means of a decoy bottle containing among other ingredients enough whisky to make it seductive.

The Connecticut Yankees fifty or sixty years ago claimed to find the "Pennsylvania Dutch" a very gullible people. It was among these that they made their largest sales of wooden nutmegs and basswood hams; it is also related that a few wagons mounted on wheels of basswood with sole-leather tires were disposed of, and one conscienceless peddler used to relate how he sold to a good old lady who could hardly speak English a tin bake-oven for a side-saddle, obtaining an enormous price. Whether these yarns are true or not, the account of Dr. Lindsay's performances would seem incredible were it not furnished on the highest authority. But there is nothing in relation to which people can be more easily humbugged than medicine or the treatment of sickness. Those who have purchased pine blocks for healing purposes are not more susceptible to humbug than the dupes of Christian Science or the pilgrims to certain shrines.

FARMING IN THE EASTERN STATES.

For years we have been told of the steady decay of New England farm life. The farms were being deserted for a chance at life in the cities by the young men, and for the more fertile lands of the West by those who preferred to cultivate the soil. The passion to get away was so great that farm owners went off without waiting to sell or lease their old lands, and a dozen years ago it was stated that a thousand of these deserted farms could be found in New Hampshire alone, and almost an equal proportion in Maine and Massachusetts. It was not a decay of men or an accumulation of wealth, like that complained of by the poet, but exactly the reverse. Men were accumulating in the cities and wealth was decaying in the country.

But a reaction has set in. A clergyman who has been making a tour of New England states that it is a growing practice with New Englanders who have grown rich in the cities to buy the home farm and send their families to it in summer. They decorate it with handsome buildings and grounds, and stock it with choice fruits and farm animals. Besides, the New England boy who chooses farming has begun to weigh his chances on the old farm against the cyclones, grasshoppers, blizzards and freight charges which often make life a burden in the Western country in spite of the superior productiveness of the soil. Hence farming lands in New England are coming into demand again and appreciating in value.

Much has been written also about the decrease of the rural population of New York, especially in the western and northern part of the state. The complaint is true enough, but it is due to the accumulation of wealth rather than to the decay of the soil. The farmer who gets rich adds to his wealth by absorbing the acres of his less thrifty neighbor. This absorption process, aided by constant improvements in labor-saving machinery, steadily reduces the number of families in the community. But the land-gatherer is prompted in his policy by wise foresight. He realizes that the time must come when his farms will constitute the source of supply and possibly the background and summer resting place of the great city. Agriculture is to become diversified by other employments providing a big army of consumers along the line of every railroad and canal. New York, in consequence of its favorable topographical construction, is to become the outlet and the great railroad thoroughfare for the West. There is no other state in the Union across which a railroad can be laid from the West to the Atlantic without climbing and descending, or tunneling through huge mountains. This fact suffices to indicate the future of New York agriculture and that of New England as well.

PUBLIC OPINION.

The recent imprisonment of two American ladies at Mentone, France, on complaint of a swindling dressmaker, has been atoned for by a formal apology from the French government to the United States and the reprimanding of the officials concerned. This may be sufficient, but it is not poetic atonement. The least that President Carnot could have done to make things really square was to accompany the apology by a set of new dresses from M. Worth with his compliments. After this let not France claim to be polite.—*Philadelphia Times.*

The Grand Jury finds no indictments in the matter of the Assembly ceiling fraud. Well, no one expected that it would. The entire jury system in Albany county is rotten—rotten to the core. Nothing can be expected in the way of juries in a community controlled by one of the worst bands of political pirates that ever infested any portion of the civilized earth. Snaith has been in the hands of his friends and associates.—*Albany Journal.*

"Old Hutch," the Chicago wheat king, was held up by highwaymen a few days ago, who went through his pockets and did not find a cent. But a highwayman who waylaid a laborer in New-York Central Park, was rewarded by a haul of thirteen cents. Thus evidences of the inequality in the distribution of wealth are constantly brought to light.—*Binghamton Republican.*

St. Louis county farmers are as a rule intelligent and well posted, but when 11 of them refrained from lynching a highwayman Tuesday evening because they were under the impression that it took 12 men to make a lynching legal, they displayed a deplorable ignorance of law. Texas or Kentucky vigilants would never have made such a mistake.—*St. Louis Chronicle.*

If the "chivalry" of the South forbids colored men to ride in the same car with white men, common honesty and decency should prohibit Southern railroads from taking colored men's money and selling them tickets for cars out of which they are to be ejected later on.—*Norwich Bulletin.*

Whisky is a good thing for rattlesnake bites, but a poor thing on which to float a party. Mr. Hill may find himself badly bitten by whisky itself.—*Goshen Democrat.*

CURRENT HUMOR.

A young Dakotan, climbing the stairs to an elevated railroad train, accidentally trod on the heel of a Harlem swell. "Scuse me," said the Westerner in a cowboy voice. "Naw, sir. You are insolent. I shall weport you to an hofficer." "I wer' a-goin' ter say," said the Dakotan, "scuse me fer not er steppin' on yer neck," and he slapped down a nickle and boarded a downtown train.

THE BEST ADVERTISING.

The most efficient advertising in behalf of Hood's Sarsaparilla is that which comes from the medicine itself. That is, those who are cured by it, speak to friends suffering similarly, who in turn derive benefit and urge others to try this successful medicine. Thus the circle of its popularity is rapidly widening from this cause alone, and more and more are becoming enthusiastic in behalf of Hood's Sarsaparilla as it actually demonstrates its absolute merit. All that is asked for Hood's Sarsaparilla is that it be given a fair trial. If you need a good blood purifier, or building up medicine, try Hood's Sarsaparilla.

COTTON CROP OF THE U. S.

WILBUR L. HALE PRESENTS SOME INTERESTING FIGURES.

The Average Weight of Bales Heavier This Year Than in the Previous Season—India The Chief Competitor of England in the Markets of China and Japan, Etc.

Wilbur L. Hale, of this City, contributes the following: The American cotton crop of 1887-88 reached a total of 7,017,707 bales, and that just marketed for 1888-89, according to the annual statement of the *Commercial and Financial Chronicle*, was 6,935,082, showing a decrease of 82,625 in number of bales. The average weight, 400 pounds, has been greater this year, so the crop is equal to 7,083,000 bales of last year's average weight. This vast amount is nearly double in number of bales to the best year ever had in ante-bellum days, and more than double the weight of any crop ever produced in this country by slave labor. Since that time, however, the manufacture of the staple has been so greatly improved that for the past four years at least the per cent. of consumption has exceeded the per cent. of production. The figures are in thousands of bales of 400 pounds each:

	Great Britain.	Continent.	United States.	Total.
1885-6	3,628	3,065	2,278	9,371
1886-7	3,624	3,640	2,423	9,028
1887-8	3,841	3,770	2,570	10,141
1888-9	3,908	3,978	2,685	10,571
Increase per cent. 4 years	7.7	12.8	17.8	12.8

It will be noted that the rate of increase is greater in our own country, but the most extraordinary feature is the fact that for the first time in the history of the cotton trade continental consumption has overtaken and passed that of Great Britain. Indeed, it is remarkable that Great Britain should show any increase at all in view of its almost stationary population, and to show any increase we must believe the popularity of these goods are on the advance. This assumption, too, is well sustained by a comparison of the consumption of 5,116,000 bales in 1872-3 to 7,883,000 bales in 1888-9, an increase of nearly 55 per cent. in consumption as compared with an increase of less than 5 per cent. in population for all Europe in that time.

In 1872-3 Great Britain consumed 3,084,600 bales and the Continent 2,032,000. For about six years Great Britain stood almost still, the Continent gradually gaining. Since that time there has been a gain in both divisions, the Continent growing the more rapidly, however, bringing about the noteworthy fact noted above. In looking at the progress of cotton trade in our own country, we give the figures for Northern and Southern consumption separately and on the same basis as in previous tables, as follows:

	1885-6	1886-7	1887-8	1888-9	Increase per cent
North.....	1,890	1,372	2,040	2,130	12.8
South.....	388	451	500	555	43.0

While the increase in Northern consumption is gratifying, it is insignificant when compared with the progress South. There, however, the rapidity with which mills have been erected, and the increase in the number of spindles from 1,177,901 last year to 1,344,576 has outstripped the absorbing power of the market, and in consequence some new concerns are working without adequate returns. The mistake there, however, has largely been that they have been too closely confined to the one class of coarse goods. With this rectified a larger and more remunerative market awaits them. India has not been included in these tables. Her increase has been from 630,000 bales in 1885-6 to 850,000 in 1888-9, or 35 per cent. But a small per cent. of her product is marketed in Europe or England, and it is possible the slow growth of England's trade is due to the fact that India has been the chief competitor of England in the markets of China and Japan, the exports to those countries having risen within the past five years from $15,690,000 to $31,875,000."

THE CHEROKEE STRIP AND OKLAHOMA

Will the Strip Revert to the Government? A Change in Homesteaders' Titles, Etc.

By Telegraph to The Freeman.

ST. LOUIS, Sept. 24.—Congressmen Springer, of Illinois; Baker, of New-York; Monsur, of Missouri, and Allen, of Mississippi, arrived from the Indian Territory last night. They are unanimously of the opinion that the Cherokee patent to the strip is only an easement and by no means a fee simple. They say the Cherokees have abandoned it by turning it over to cattle syndicates, and that consequently it must and will revert to the Government. One of the earliest duties of Congress, they say, will be to open it to white settlement. A discussion of the Cherokee strip question with the Cherokees at Vinita proved conclusively that they have no intention of parting with the strip voluntarily. The Committee favors action upon the Oklahoma Territorial Government matter as soon as Congress meets. They want the homesteaders to have a title after 18 months' settlement instead of five years as at present required. The passage of the old pre emption law will also be recommended. The Committee believes that the cities and towns should be secured in their titles to city lots as soon as possible that other towns outside of Oklahoma such as Muskogee and Purcell, should be given town site privileges, and that the citizens should be allowed to negotiate for city lots and hold them in fee simple. Mr. Springer said this matter would receive his earliest attention. The delegation is of opinion that the opening of millions of acres of land next spring, the building of railroads now in contemplation and the civilizing influences of the whites will make of the Indian Territory a grand State of the Union at no distant date.

The Man and Wife Were Innocent.

By Telegraph to The Freeman.

ELDORADO, Kans., Sept. 24.—The details of the mob-trial of Alonzo Edwards and his wife, Mary, at Rosalia, Kansas, are of the most revolting character, and reveal a story of inhuman treatment seldom met with even in the administration of border justice. Edwards and his wife were charged with killing the three-year-old child of Henry Bloomer and wife on Tuesday last. The child was left in charge of Mrs. Edwards while Bloomer and his wife went to a field to see a farmer. When they returned to the house the child had disappeared, and although hundreds joined in the search for it for several days no trace of it could be found. A mob then strung up Mrs Edwards to a tree twice until she was black in the face and the rope cut deep into her neck. The woman then confessed that she had thrown a stick of wood at a rat and had hit the child by mistake, killing it instantly and had thrown the body into the creek. Edwards was also strung up but declared he was innocent. Friday night the prisoners were placed in jail here and from that time until yesterday morning a mob of from 500 to 1,500 continually surrounded the jail, clamoring for the lives of the accused. The Sheriff barricaded the doors and arming himself and jailers, kept the mob at bay. Early yesterday morning the missing child was found alive and well, sitting on the doorstep of a farmer near Rosalia. Where it had been all the time is a mystery. It was unable to speak plainly, and could give no account of itself. It is supposed it was kidnapped, and returned when it was found that its disappearance was causing great excitement. When the news of the finding of the child was brought to the City the mob could not be made to believe it until the child was produced and recognized by its mother, Mr. and Mrs. Edwards were then released. They are still suffering from effects of their harsh treatment. An attempt will be made to prosecute the leaders of the mob. Mrs. Edwards is a large woman of emotional temperament and was probably frightened into making a false confession.

Three Persons Attacked by a Dog.

By Telegraph to The Freeman.

One of them literally cut the dog to pieces with a hatchet, though it required a policeman's bullet to finally dispatch the animal. The dog left the men and made a second attack on the boy during the encounter. Twenty-eight wounds were found on the boy, and his left ear was hanging by a shred. The bites received by Billings and Thomas were also serious. The doctors say the dog was not "mad."

COTTON CROP OF THE U. S.

WILBUR L. HALE PRESENTS SOME INTERESTING FIGURES.

The Average Weight of Bales Heavier This Year Than in the Previous Season—India The Chief Competitor of England in the Markets of China and Japan, Etc.

Wilbur L. Hale, of this City, contributes the following: The American cotton crop of 1887-88 reached a total of 7,017,707 bales, and that just marketed for 1888-89, according to the annual statement of the *Commercial and Financial Chronicle*, was 6,935,082, showing a decrease of 82,625 in number of bales. The average weight, 400 pounds, has been greater this year, so the crop is equal to 7,083,000 bales of last year's average weight. This vast amount is nearly double in number of bales to the best year ever had in ante-bellum days, and more than double the weight of any crop ever produced in this country by slave labor. Since that time, however, the manufacture of the staple has been so greatly improved that for the past four years at least the per cent. of consumption has exceeded the per cent. of production. The figures are in thousands of bales of 400 pounds each:

	Great Britain.	*Continent.*	*United States.*	*Total.*
1885-6	3,628	3,165	2,278	9,371
1886-7	3,924	3,640	2,423	9,928
1887-8	3,841	3,770	2,530	10,141
1888-9	3,308	3,978	2,685	10,571
Increase per cent. 4 years	7.7	12.8	17.8	12.8

It will be noted that the rate of increase is greater in our own country, but the most extraordinary feature is the fact that for the first time in the history of the cotton trade continental consumption has overtaken and passed that of Great Britain. Indeed, it is remarkable that Great Britain should show any increase at all in view of its almost stationary population, and to show any increase we must believe the popularity of these goods are on the advance. This assumption, too, is well sustained by a comparison of the consumption of 5,116,000 bales in 1872-3 to 7,385,000 bales in 1888-9, an increase of nearly 5½ per cent. in consumption as compared with an increase of less than 5 per cent. in population for all Europe in that time.

In 1872-3 Great Britain consumed 3,084,000 bales and the Continent 2,032,000. For about six years Great Britain stood almost still, the Continent gradually gaining. Since that time there has been a gain in both divisions, the Continent growing the more rapidly, however, bringing about the noteworthy fact noted above. In looking at the progress of cotton trade in our own country, we give the figures for Northern and Southern consumption separately and on the same basis as in previous tables, as follows:

	1885-6	1886-7	1887-8	1888-9	Increase per cent
North.....	1,890	1,972	2,049	2,130	12.8
South.....	388	451	509	555	43.0

While the increase in Northern consumption is gratifying, it is insignificant when compared with the progress South. There, however, the rapidity with which mills have been erected, and the increase in the number of spindles from 1,177,901 last year to 1,344,576 has outstripped the absorbing power of the market, and in consequence some new concerns are working without adequate returns. The mistake there, however, has largely been that they have been too closely confined to the one class of coarse goods. With this rectified a larger and more remunerative market awaits them. India has not been included in these tables. Her increase has been from 630,000 bales in 1885-6 to 850,000 in 1888-9, or 35 per cent. But a small per cent. of her product is marketed in Europe or England, and it is possible the slow growth of England's trade is due to the fact that India has been the chief competitor of England in the markets of China and Japan, the exports to those countries having risen within the past five years from $15,690,000 to $31,875,000."

THE CHEROKEE STRIP AND OKLAHOMA

Will the Strip Revert to the Government? A Change in Homesteaders' Titles, Etc.

By Telegraph to The Freeman.

ST. LOUIS, Sept. 24.—Congressmen Springer, of Illinois; Baker, of New-York; Mansur, of Missouri, and Allen, of Mississippi, arrived from the Indian Territory last night. They are unanimously of the opinion that the Cherokee patent to the strip is only an easement and by no means a fee simple. They say the Cherokees have abandoned it by turning it over to cattle syndicates, and that consequently it must and will revert to the Government. One of the earliest duties of Congress, they say, will be to open it to white settlement. A discussion of the Cherokee strip question with the Cherokees at Vinita proved conclusively that they have no intention of parting with the strip voluntarily. The Committee favors action upon the Oklahoma Territorial Government matter as soon as Congress meets. They want the homesteaders to have a title after 18 months' settlement instead of five years as at present required. The passage of the old pre emption law will also be recommended. The Committee believes that the cities and towns should be secured in their titles to city lots as soon as possible that other towns outside of Oklahoma such as Muskogee and Purcell, should be given town site privileges, and that the citizens should be allowed to negotiate for city lots and hold them in fee simple. Mr. Springer said this matter would receive his earliest attention. The delegation is of opinion that the opening of millions of acres of land next spring, the building of railroads now in contemplation and the civilizing influences of the whites will make of the Indian Territory a grand State of the Union at no distant date.

The Man and Wife Were Innocent.

By Telegraph to The Freeman.

ELDORADO, Kans., Sept. 24.—The details of the mob-trial of Alonzo Edwards and his wife, Mary, at Rosalia, Kansas, are of the most revolting character, and reveal a story of inhuman treatment seldom met with even in the administration of border justice. Edwards and his wife were charged with killing the three-year-old child of Henry Bloomer and wife on Tuesday last. The child was left in charge of Mrs. Edwards while Bloomer and his wife went to a field to see a farmer. When they returned to the house the child had disappeared, and although hundreds joined in the search for it for several days no trace of it could be found. A mob then strung up Mrs Edwards to a tree twice until she was black in the face and the rope cut deep into her neck. The woman then confessed that she had thrown a stick of wood at a rat and had hit the child by mistake, killing it instantly and had thrown the body into the creek. Edwards was also strung up but declared he was innocent. Friday night the prisoners were placed in jail here and from that time until yesterday morning a mob of from 500 to 1,500 continually surrounded the jail, clamoring for the lives of the accused. The Sheriff barricaded the doors and arming himself and jailers, kept the mob at bay. Early yesterday morning the missing child was found alive and well, sitting on the doorstep of a farmer near Rosalia. Where it had been all the time is a mystery. It was unable to speak plainly, and could give no account of itself. It is supposed it was kidnapped, and returned when it was found that its disappearance was causing great excitement. When the news of the finding of the child was brought to the City the mob could not be made to believe it until the child was produced and recognized by its mother, Mr. and Mrs. Edwards were then released. They are still suffering from effects of their harsh treatment. An attempt will be made to prosecute the leaders of the mob. Mrs. Edwards is a large woman of emotional temperament and was probably frightened into making a false confession.

The bites received by Billings and Thomas were also serious. The doctors say the dog was not "mad."

COTTON CROP OF THE U. S.

WILBUR L. HALE PRESENTS SOME INTERESTING FIGURES.

The Average Weight of Bales Heavier This Year Than in the Previous Season—India The Chief Competitor of England in the Markets of China and Japan, Etc.

Wilbur L. Hale, of this City, contributes the following: The American cotton crop of 1887-88 reached a total of 7,017,707 bales, and that just marketed for 1888-89, according to the annual statement of the *Commercial and Financial Chronicle*, was 6,935,082, showing a decrease of 82,625 in number of bales. The average weight, 400 pounds, has been greater this year, so the crop is equal to 7,083,000 bales of last year's average weight. This vast amount is nearly double in number of bales to the best year ever had in ante-bellum days, and more than double the weight of any crop ever produced in this country by slave labor. Since that time, however, the manufacture of the staple has been so greatly improved that for the past four years at least the per cent. of consumption has exceeded the per cent. of production. The figures are in thousands of bales of 400 pounds each:

	Great Britain.	Continent.	United States.	Total.
1885-6	3,628	3,165	2,578	9,371
1886-7	3,624	3,540	2,423	9,628
1887-8	3,841	3,770	2,570	10,141
1888-9	3,308	3,978	2,685	10,571
Increase per cent. 4 years	7.7	12.8	17.3	12.8

It will be noted that the rate of increase is greater in our own country, but the most extraordinary feature is the fact that for the first time in the history of the cotton trade continental consumption has overtaken and passed that of Great Britain. Indeed, it is remarkable that Great Britain should show any increase at all in view of its almost stationary population, and to show any increase we must believe the popularity of these goods are on the advance. This assumption, too, is well sustained by a comparison of the consumption of 5,116,000 bales in 1872-3 to 7,886,000 bales in 1888-9, an increase of nearly 55 per cent. in consumption as compared with an increase of less than 5 per cent. in population for all Europe in that time.

In 1872-3 Great Britain consumed 3,084,000 bales and the Continent 2,032,000. For about six years Great Britain stood almost still, the Continent gradually gaining. Since that time there has been a gain in both divisions, the Continent growing the more rapidly, however, bringing about the noteworthy fact noted above. In looking at the progress of cotton trade in our own country, we give the figures for Northern and Southern consumption separately and on the same basis as in previous tables, as follows:

	1885-6	1886-7	1887-8	1888-9	Increase per cent
North.....	1,890	1,372	2,040	2,130	12.8
South.....	388	451	560	555	43.0

While the increase in Northern consumption is gratifying, it is insignificant when compared with the progress South. There, however, the rapidity with which mills have been erected, and the increase in the number of spindles from 1,177,901 last year to 1,344,576 has outstripped the absorbing power of the market, and in consequence some new concerns are working without adequate returns. The mistake there, however, has largely been that they have been too closely confined to the one class of coarse goods. With this rectified a larger and more remunerative market awaits them. India has not been included in these tables. Her increase has been from 630,000 bales in 1885-6 to 850,000 in 1888-9, or 35 per cent. But a small per cent. of her product is marketed in Europe or England, and it is possible the slow growth of England's trade is due to the fact that India has been the chief competitor of England in the markets of China and Japan, the exports to those countries having risen within the past five years from $15,690,000 to $31,875,000.

THE CHEROKEE STRIP AND OKLAHOMA

Will the Strip Revert to the Government? A Change in Homesteaders' Titles, Etc.

By Telegraph to The Freeman.

ST. LOUIS, Sept. 24.—Congressmen Springer, of Illinois; Baker, of New-York; Monsur, of Missouri, and Allen, of Mississippi, arrived from the Indian Territory last night. They are unanimously of the opinion that the Cherokee patent to the strip is only an easement and by no means a fee simple. They say the Cherokees have abandoned it by turning it over to cattle syndicates, and that consequently it must and will revert to the Government. One of the earliest duties of Congress, they say, will be to open it to white settlement. A discussion of the Cherokee strip question with the Cherokees at Vinita proved conclusively that they have no intention of parting with the strip voluntarily. The Committee favors action upon the Oklahoma Territorial Government matter as soon as Congress meets. They want the homesteaders to have a title after 18 months' settlement instead of five years as at present required. The passage of the old pre emption law will also be recommended. The Committee believes that the cities and towns should be secured in their titles to city lots as soon as possible that other towns outside of Oklahoma such as Muskogee and Purcell, should be given town site privileges, and that the citizens should be allowed to negotiate for city lots and hold them in fee simple. Mr. Springer said this matter would receive his earliest attention. The delegation is of opinion that the opening of millions of acres of land next spring, the building of railroads now in contemplation and the civilizing influences of the whites will make of the Indian Territory a grand State of the Union at no distant date.

The Man and Wife Were Innocent,

By Telegraph to The Freeman.

ELDORADO, Kans., Sept. 24.—The details of the mob-trial of Alonzo Edwards and his wife, Mary, at Rosalia, Kansas, are of the most revolting character, and reveal a story of inhuman treatment seldom met with even in the administration of border justice. Edwards and his wife were charged with killing the three-year-old child of Henry Bloomer and wife on Tuesday last. The child was left in charge of Mrs. Edwards while Bloomer and his wife went to a field to see a farmer. When they returned to the house the child had disappeared, and although hundreds joined in the search for it for several days no trace of it could be found. A mob then strung up Mrs Edwards to a tree twice until she was black in the face and the rope cut deep into her neck. The woman then confessed that she had thrown a stick of wood at a rat and had hit the child by mistake, killing it instantly and had thrown the body into the creek. Edwards was also strung up but declared he was innocent. Friday night the prisoners were placed in jail here and from that time until yesterday morning a mob of from 500 to 1,500 continually surrounded the jail, clamoring for the lives of the accused. The Sheriff barricaded the doors and arming himself and jailers, kept the mob at bay. Early yesterday morning the missing child was found alive and well, sitting on the doorstep of a farmer near Rosalia. Where it had been all the time is a mystery. It was unable to speak plainly, and could give no account of itself. It is supposed it was kidnapped, and returned when it was found that its disappearance was causing great excitement. When the news of the finding of the child was brought to the City the mob could not be made to believe it until the child was produced and recognized by its mother, Mr. and Mrs. Edwards were then released. They are still suffering from effects of their harsh treatment. An attempt will be made to prosecute the leaders of the mob. Mrs. Edwards is a large woman of emotional temperament and was probably frightened into making a false confession.

The bites received by Billings and Thomas were also serious. The doctors say the dog was not "mad."

MEN, MATTERS AND PROJECTS BRIEFLY PARAGRAPHED.

For Violating the Excise Law—The Jewish New Year—In Surrogate's Court—Local Branch of State Charities Aid Association—Some Deductions, Etc.

During the past week evidence has been obtained against several saloon-keepers who have been selling without licenses. Suits will be brought against them. One or two dealers who have been selling on Sunday have also been detected.

The following has a local application:

People when they write, no matter to whom, or for what purpose, ought to get into the habit of putting in the stops where they belong. If they are slovenly and careless in this particular, those they write to will often make mistakes in understanding their letters. Printers commit great blunders sometimes, just because the authors they have to deal with either do not point their manuscripts at all or point them wrong. The worst mistake resulting from bad pointing that we ever heard of, was something like this: A lady in Massachusetts had a husband who was about making a sea voyage, and she wrote a note and gave it to her minister to read on the Sabbath, in which she meant to say, "A member of this congregation going to sea, his wife desires prayers for his safety." But instead of reading it thus, on account of the stops being used wrong, it was read in this manner: "A member of this congregation, going to see his wife, desires prayers for his safety."

To the foregoing this may be added: "Do not write on both sides of the sheet of paper!"

On Sunday two young men went driving on the Saugerties Road in a rig hired at Murphy's livery. The next morning the horse was found dead near a telegraph pole and the wagon badly damaged. The horse ran head-first into the pole, and was killed. The young men say that they do not know how the accident occurred, as they fell out of the wagon before it happened. They managed to get a "lift" home, but left the harness behind, and that has disappeared. The manager of the livery says somebody has "got to pay." One of the young men was arraigned before Justice McNamee in Eddyville this forenoon. The case was adjourned until next Tuesday. A settlement may be effected before then.

To-morrow evening will bring to a close the Jewish year 5649, and the New Year 5650 will be inaugurated. Thursday, the first day of the first month of the year, is called by Jews Tishri. On that day hoshannas will be sung in the various synagogues. The Hebrew must celebrate the beginning of a new year twice in a year. The business year begins in January, and in the month of Tishri the year of the Jews' faith is begun. For years the Jewish New-Year has had the significance of merely a day of preparation for the year's work in religious channels.

Last night a Downtown physician had an experience that he will not soon forget. Two women and a man, the latter so intoxicated that he could hardly walk, awoke the doctor at a late hour. One of the females was indisposed. Then the trio said they desired to cross the Rondout Creek *en route* to their home in Port-Ewen. The ferry-boat had stopped running, and the doctor, to get the party off his hands, secured a small boat and took them across. The trip was one fraught with danger. The drunken man several times just missed upsetting the boat.

In Ulster Surrogate's Court the will of Jonathan Caverly, town of Marlborough, has been proved and admitted to probate. Witnesses A. D. Lent and William E. Wilcox. The will gives to the wife Ella $1,500; to Luther P. a wood lot of 15 acres; to Abner W. and Dora Louisa Rickley the remainder of the real and personal property. Abner W. and Luther P. Caverly, Executors. The will of Jacob Elting, of Clintondale, proved and admitted to probate.

The members of Weiner Hose Company are making extensive arrangements for their fair, to be held on October 30 and 31 and November 1 and 2 in the Academy of Music. Many prizes will be voted for, among them being a lamp to the most popular conductor on the Ulster & Delaware and Wallkill Valley railroads. A large number of the lady friends of the company are working hard to make the fair a success.

On Thursday Venus will be in conjunction with Saturn. Four days later Venus will overtake Mars, and there will be another pretty spectacle for early risers. The conjunctions, however, will not be very close and consequently will not possess the interest that attached to the meeting of Mars and Saturn.

The funeral of John VanGaasbeek, held at the house this afternoon, was largely attended. The members of Kosciusko Lodge of Odd Fellows, of which the deceased was a member, followed the remains to the place of interment. Mr. VanGaasbeek was one of the oldest members of that lodge.

Michael Jersen, who tills a farm near the Red House, was in town to-day, and he told of a turtle he found in one of his fields yesterday that had the date 1705 on its back. Jersen exhibited a flint arrow head which he said was once on the end of an arrow shot from a bow by an Indian.

A coal-shoveler on the Island Dock here to-day was searching for a fellow-workman. Near the Delaware & Hudson Canal Company's lower office about 25 men were standing in a group. "John!" yelled the shoveler. Thirteen of the 25 turned their heads. They were all "Johns."

One of the Downtown nuisances are the crowds of young men who congregate on corners and insult passers-by. Nowhere is the evil more apparent than on Union-avenue. Certain people on their way to church on Sunday are compelled to run a gauntlet of indecent remarks.

Two men who had quarreled and came to blows rushed into the Recorder's Court yesterday forenoon. They both slapped their hands on the desk and shouted in unison: "I was here first; give me a warrant for his arrest." The Recorder told them to leave.

The "cat" of the branch office of THE FREEMAN has of late been working for Ulster County. It has been borrowed by the Deputy Sheriff and locked up in the jail, where it destroys rats, which infest the building.

The promenade concert and hop to be given by the Fourteenth Separate Company at the Armory on Thursday evening promises to be largely attended.

The average little girl is now provided with a tricycle. They are skillfully managed, and but few collisions with pedestrians occur on the sidewalks.

Soon Dutchess County hogs will begin to be brought here in large numbers. This item reflects in no way upon Poughkeepsie.

The twenty-fifth annual meeting of the Hudson River Ministerial Association began in the Reformed Church, Hudson, yesterday afternoon. There was an interesting programme of exercises. The Rev. G. C. TO-DAY'S LOCAL SHIPPING NEWS.

Coal Tonnage at Tidewater—Inspectors in Town—To Repair the Dikes.

The propeller I. M. North, owned by the Cornell Steamboat Company, was built in Philadelphia for the United States Government about 24 years ago. The name of the vessel at that time was the Poppy. The North has done more hard work—with possibly the exception of the Norwich—than any other boat in the Cornell line.

There were reported at the Rondout Department of the Delaware & Hudson Canal Company to-day the following vessels for cargoes of coal: Barges Petrel, 280 tons; Vanderwerken, 160; McCollom; 400; C. C. Smith, 270; Howland Fish, 260, and two Erie boats, 100 each.

Yesterday Messrs. Keller and Brooks, of Albany, United States Steamboat Inspectors, inspected the hulls and boilers of the propellers R. J. Townsend and Dr. Kennedy, of the Cornell Steamboat Company.

A large scow loaded with stone has arrived here from New-York for the United States Government. The stone will be used to repair the dikes.

The whistle of the steamboat James W. Baldwin was blown at the mouth of the Rondout Creek at 10 o'clock last night.

There arrived at tidewater at Eddyville yesterday 39 Delaware & Hudson Canal boats, laden with 5,200 tons of coal.

The keel of an iron dry-dock, to be used by the Government at Philadelphia, was laid at Newburgh the other day.

The schooner Minnie C. Post, laden with 500 barrels of cement, cleared this port this afternoon for Tarrytown.

A Boston schooner is being loaded with 1,500 barrels of cement at the Newark & Rosendale Works.

HUNTING AND FISHING STORIES TOLD.

On the Track of "Pot" Fishermen—Rather a Large "Catch," Etc.

These are the mellow autumn days and hunters rejoice and make the most of them. A number of wing shots have made trips in the country with their dogs and guns with fair success. They say that woodcock are not numerous.

Dr. Willett Kidd, Fish and Game Protector for the Newburgh District, has commenced suit in the Supreme Court against individuals alleged to have placed and maintained eel racks in the Wallkill Creek.

Yesterday John Henyon caught in the Hudson River, near the Esopus Meadows, an eel that weighed four and a quarter pounds.

[From the Poughkeepsie News-Press.]

Benjamin Porter exhibited here yesterday the queerest-looking fish that has been seen in these parts this year. It was about 14 inches in length and a dorsal fin extended along its back from its neck to the tip of its tail. With the exception of a row of scales running the whole length of the sides of the fish, the skin was like that of a bull-head or eel, only being of a light tan color. It was caught in the Hudson River by a Glasco fisherman.—KINGSTON FREEMAN.

Editor News-Press: The "queerest-looking fish" caught in the Hudson River by a Glasco fisherman is a German carp. Yours very truly, A. ROOSEVELT.

A LETTER FROM "OUTIS."

INTERESTING NOTE AND COMMENT FROM NEW-YORK CITY.

Mrs. Mary Logan and Her Ways—Mrs. Morton as a Society Lady—Families of Colonial Distinction—A Notable Collection of Articles of a Distinguished Soldier.

Probably the most popular woman this side of the Rocky Mountains is Mrs. Mary Logan, widow of General John A. Logan, and a fair daughter of the State of Illinois. Every one has a pleasant word for her, and I doubt if the person could be found who would say anything to her disparagement. Her friends are legion, and those who have had the good fortune to bask in the sunlight of her presence swear eternal allegiance to the widow of gallant "Black Jack" Logan. Men and women "rant and tear" over the personal magnetism of this man and that, but what more could one ask for than a lovely, loveable woman, just passing the zenith of life, and going down the valley with a cheering smile and an encouraging word for all fellow-travelers. Truly "an old age serene and bright," like a hoary head is "a crown of glory," and Mrs. Logan is deserving of all the praise, honor and glory accorded her. She is still the same winsome woman of five or six years ago, when her wifely pride in the achievements of her husband kept her thoughts and energies most actively employed, and she still wears the coronet of gray hair surmounted now by a widow's cap, giving a charm to the fresh face beneath it. Mrs. Logan has always been considered a splendid manager, and during the General's life-time it was she who held the purse-strings. To give you an illustration of her wonderful business capacity, I am going to tell you how she came into possession of "Calumet Place" and managed to furnish it most artistically with very little ready capital. She chanced to hear that an old country place at the head of Fourteenth-street, in Washington, originally owned and occupied by an old family by the name of Stone, was to be divided into lots and sold. The old homestead, probably built a century or more ago, struck Mrs. Logan's fancy, and having a keen eye to business, looking ahead a few years, and seeing that property in that locality must largely increase in value, she made an offer for the old house and purchased it at a good deal less than its actual value. She now possessed her castle, and the next point was to procure furniture for this immense establishment. She had literally nothing to commence with. To be sure General Logan had been in political life at the Capital for years, but they had never felt able to purchase a home and their lives had been spent in boarding houses. Mrs. Logan put on her thinking cap again, and having a great fancy for the antique, which just about that time was getting to be the rage, she determined to furnish her home in that style as much as possible.

And now, good readers of THE FREEMAN, how did she go to work? Did she come to New-York and interview a Sypher, or did she go to a fine shop, like Zimmerman's in Washington, where the antique can always be found in profusion, but where spindle-legged side-boards and old-fashioned, high-post bed-steads always command the highest prices? No, she did neither, but she went on a tour of investigation on her own account, and coming across a little shop in the most out-of-the-way part of the town, what we call in New-York "the slums," she espied several pieces of furniture which her practiced eye told her, if scraped and carefully rubbed down, would be fit to adorn a palace. She then had a distinct understanding with this second hand dealer that she would take everything in the line of old-fashioned furniture he could obtain. In this way "Calumet Place" was furnished, and one would be surprised to learn at, comparatively speaking, how little expense. Here and there one sees a flag or a touch of some bright color, and in the large hall the bereaved widow has placed for her especial enjoyment and pleasure everything she possesses connected with her husband, or identified with his life. It would naturally be one of the most interesting collections of articles associated with the distinguished career of a soldier and politician in the United States. A few years have passed by, and Mrs. Logan owns to-day a most beautiful home, surrounded on every side by pleasant neighbors, and "Calumet Place" is regarded as one of the most desirable and valuable pieces of property within the limits of the District of Columbia. Mrs. Tucker, wife of Major Tucker, of the Army, and Mrs. Logan's only daughter, lives with her, and occupied the house during her mother's absence in Europe, where she has been traveling for the past year, chaperoning the daughters of George W. Pullman, the man of parlor-car fame.

While I am on the subject of popular society women, I must not pass by Mrs. Levi P. Morton, the wife of our popular citizen and Vice-President. Society in Gotham has many attractive women who would grace any position in this land or at any foreign court, but I think it would be difficult to find a more perfect representative of the best American type of women than Mrs Morton. Before her marriage to Mr. Morton she was a Miss Street, of Poughkeepsie, the daughter of very prominent man, and her mother, whose maiden name was Kearny, belonged to the same family as our gallant General "Phil" Kearny, and was nearly related to him. The Kearnys were a well-known New-York family, and inter-married at an early period of our history with the Watts, a colonial family of distinction, whose sympathies, notwithstanding their distinguished British relatives, were decidedly anti-Tory. John Watts, who was one of New-York's most distinguished citizens some 50 years ago, and whose residence was in the lower part of Broadway, was a member of this family, and the founder of the Leake and Watts Orphan Asylum, the ground of which has been recently purchased for the erection of the mammoth Episcopal Cathedral. Mrs. Morton is the second wife of the Vice-President, he having married early in life a Vermont woman, who lived only a few years, and died without children. By his present wife he has five children, all girls, ranging in age from six or seven to 14. In purchasing a house for occupancy for the next four years in Washington, where Mr. Morton will preside over the United States Senate, and add to the dignity of that august body, both Mr. and Mrs. Morton considered the comfort and convenience of the youthful members of the family. These happy little girls, born with a golden spoon, and "reared in the lap of luxury," have always been accustomed to have their own separate apartments, and in Washington, in the superb establishment the Vice-President has purchased, their tastes will be similarly indulged. I think a short history of this house might prove of some interest to the readers of THE FREEMAN. It is most beautifully situated upon an eminence at the intersection of Rhode Island-avenue, Sixteenth-street and Massachusetts-avenue, and looks directly out upon the equestrian statue of the hero of Lundy's Lane, General Winfield Scott. The house was originally built some 10 years ago by Lieutenant Brodhead, of the United States Navy, who married a rich woman, Miss Willis, niece of the poet, N. P. Willis. It was his ambition to own the finest house at the Capital, but during the erection he became financially involved, and was obliged to part with it upon its completion to Professor Alexander Graham Bell, who made it his home for about five years. It then became a social center, where Mrs. Bell with her scholarly husband dispensed the hospitalities for which they are so far-famed. Here they continued to reside, several little children making their entree into the world, until one cold, bleak night, a winter or two ago, when the house was discovered to be on fire, and Mrs. Bell and her little ones barely escaped with their lives, taking refuge at the house of a neighbor. From that day Mrs. Bell took a strong dislike to the house, and it has remained vacant ever since. It is a superb establishment for entertainments, and I doubt if its superior could be found in New-York or any other large city. The first floor occupies at least 150 feet in depth, and is divided into the drawing-room proper, an art room and a dining-room, 24x36 feet. I hear Mr. Morton has placed this palace in the hands of a first-class decorator, and in the autumn when the family are ready to occupy it, it will be an establishment second to none in the land.—OUTIS.

Scrofula Humor.

"My Daughter's Life Was Saved."

"In regard to my little daughter, whose life was saved, as we believe, by Hood's Sarsaparilla, I would say that before she was six months old, scrofula sores began to appear on different parts of her body, and in a short time she had 7 running sores. Two physicians were called, but they gave us no hope. One of them advised the amputation of one of her fingers, to which we refused assent. Our attention was called to Hood's Sarsaparilla, and we began giving it to her. A marked improvement was noticed after she had taken only one bottle, and by a continued use of it, her recovery was complete. And she is now, being seven years old, strong and healthy. The other members of my family have been greatly benefited by Hood's Sarsaparilla, and I recommend it as an excellent blood purifier." B. C. JONES, Alna, Lincoln Co., Me.

Scrofula in the Eyes.

"My daughter suffered terribly with sore eyes, caused by scrofula humor. We were obliged to keep her out of school for two years. We had medical attendance, but she failed to gain relief. At last, knowing that Hood's Sarsaparilla had cured my mother of rheumatism, and believing it must be good for the blood, I concluded to have my daughter try it, and it has entirely cured her."
CORNELIUS YEAGER, Marshallt own, Iowa.

For Violating the Excise Law—The Jewish New Year—In Surrogate's Court—Local Branch of State Charities Aid Association—Some Deductions, Etc.

During the past week evidence has been obtained against several saloon-keepers who have been selling without licenses. Suits will be brought against them. One or two dealers who have been selling on Sunday have also been detected.

The following has a local application:

People when they write, no matter to whom, or for what purpose, ought to get into the habit of putting in the stops where they belong. If they are slovenly and careless in this particular, those they write to will often make mistakes in understanding their letters. Printers commit great blunders sometimes, just because the authors they have to deal with either do not point their manuscripts at all or point them wrong. The worst mistake resulting from bad pointing that we ever heard of, was something like this: A lady in Massachusetts had a husband who was about making a sea voyage, and she wrote a note and gave it to her minister to read on the Sabbath, in which she meant to say, "A member of this congregation going to sea, his wife desires prayers for his safety." But instead of reading it thus, on account of the stops being used wrong, it was read in this manner: "A member of this congregation, going to see his wife, desires prayers for his safety."

To the foregoing this may be added: "Do not write on both sides of the sheet of paper!"

On Sunday two young men went driving on the Saugerties Road in a rig hired at Murphy's livery. The next morning the horse was found dead near a telegraph pole and the wagon badly damaged. The horse ran head-first into the pole, and was killed. The young men say that they do not know how the accident occurred, as they fell out of the wagon before it happened. They managed to get a "lift" home, but left the harness behind, and that has disappeared. The manager of the livery says somebody has "got to pay." One of the young men was arraigned before Justice McNamee in Eddyville this forenoon. The case was adjourned until next Tuesday. A settlement may be effected before then.

To-morrow evening will bring to a close the Jewish year 5649, and the New Year 5650 will be inaugurated. Thursday, the first day of the first month of the year, is called by Jews Tishri. On that day hoshannas will be sung in the various synagogues. The Hebrew must celebrate the beginning of a new year twice in a year. The business year begins in January, and in the month of Tishri the year of the Jews' faith is begun. For years the Jewish New-Year has had the significance of merely a day of preparation for the year's work in religious channels.

Last night a Downtown physician had an experience that he will not soon forget. Two women and a man, the latter so intoxicated that he could hardly walk, awoke the doctor at a late hour. One of the females was indisposed. Then the trio said they desired to cross the Rondout Creek *en route* to their home in Port-Ewen. The ferry-boat had stopped running, and the doctor, to get the party off his hands, secured a small boat and took them across. The trip was one fraught with danger. The drunken man several times just missed upsetting the boat.

In Ulster Surrogate's Court the will of Jonathan Caverly, town of Marlborough, has been proved and admitted to probate. Witnesses A. D. Lent and William E. Wilcox. The will gives to the wife Ella $1,500; to Luther P. a wood lot of 15 acres; to Abner W. and Dora Louisa Rickley the remainder of the real and personal property. Abner W. and Luther P. Caverly, Executors. The will of Jacob Elting, of Clintondale, proved and admitted to probate.

The members of Weiner Hose Company are making entensive arrangements for their fair, to be held on October 30 and 31 and November 1 and 2 in the Academy of Music. Many prizes will be voted for, among them being a lamp to the most popular conductor on the Ulster & Delaware and Wallkill Valley railroads. A large number of the lady friends of the company are working hard to make the fair a success.

On Thursday Venus will be in conjunction with Saturn. Four days later Venus will overtake Mars, and there will be another pretty spectacle for early risers. The conjunctions, however, will not be very close and consequently will not possess the interest that attached to the meeting of Mars and Saturn.

The funeral of John VanGaasbeek, held at the house this afternoon, was largely attended. The members of Kosciusko Lodge of Odd Fellows, of which the deceased was a member, followed the remains to the place of interment. Mr. VanGaasbeek was one of the oldest members of that lodge.

Michael Jersen, who tills a farm near the Red House, was in town to-day, and he told of a turtle he found in one of his fields yesterday that had the date 1705 on its back. Jersen exhibited a flint arrow head which he said was once on the end of an arrow shot from a bow by an Indian.

A coal-shoveler on the Island Dock here to-day was searching for a fellow-workman. Near the Delaware & Hudson Canal Company's lower office about 25 men were standing in a group. "John!" yelled the shoveler. Thirteen of the 25 turned their heads. They were all "Johns."

One of the Downtown nuisances are the crowds of young men who congregate on corners and insult passers-by. Nowhere is the evil more apparent than on Union-avenue. Certain people on their way to church on Sunday are compelled to run a gauntlet of indecent remarks.

Two men who had quarreled and came to blows rushed into the Recorder's Court yesterday forenoon. They both slapped their hands on the desk and shouted in unison: "I was here first; give me a warrant for his arrest." The Recorder told them to leave.

The "cat" of the branch office of THE FREEMAN has of late been working for Ulster County. It has been borrowed by the Deputy Sheriff and locked up in the jail, where it destroys rats, which infest the building.

The promenade concert and hop to be given by the Fourteenth Separate Company at the Armory on Thursday evening promises to be largely attended.

The average little girl is now provided with a tricycle. They are skillfully managed, and but few collisions with pedestrians occur on the sidewalks.

The Ulster County Bible Society—Pastors and Peoples, Etc.

The seventy-third annual meeting of the Ulster County Bible Society is in session in the Fair-Street Reformed Church here to-day. This forenoon a meeting of the members of the Executive Committee was held, and the work for the ensuing year was laid out. The report of the Corresponding Secretary was adopted. This afternoon's session was opened with devotional services, led by the President of the Society, the Rev. A. H. Huizinga. Committees on Auditing Accounts on Depositaries and the Nominations of Officers were appointed. The report of the Secretary, Treasurer and the Depositaries were read and adopted. After the transaction of miscellaneous business an interesting paper on "The Bible and the Explanations" was read by the Rev. A. H. Huizinga. The annual address will be delivered by the Rev. H. A. Hendrickson, of Ellenville. The attendance was not large this afternoon, but the reports showed interest is being taken in the work.

The twenty-fifth annual meeting of the Hudson River Ministerial Association began in the Reformed Church, Hudson, yesterday afternoon. There was an interesting programme of exercises. The Rev. G. C. Coal Tonnage at Tidewater—Inspectors in Town—To Repair the Dikes.

The propeller I. M. North, owned by the Cornell Steamboat Company, was built in Philadelphia for the United States Government about 24 years ago. The name of the vessel at that time was the Poppy. The North has done more hard work—with possibly the exception of the Norwich—than any other boat in the Cornell line.

There were reported at the Rondout Department of the Delaware & Hudson Canal Company to-day the following vessels for cargoes of coal: Barges Petrel, 280 tons; Vanderwerken, 160; McCollom; 400; C. C. Smith, 270; Howland Fish, 260, and two Erie boats, 100 each.

Yesterday Messrs. Keller and Brooks, of Albany, United States Steamboat Inspectors, inspected the hulls and boilers of the propellers R. J. Townsend and Dr. Kennedy, of the Cornell Steamboat Company.

A large scow loaded with stone has arrived here from New-York for the United States Government. The stone will be used to repair the dikes.

The whistle of the steamboat James W. Baldwin was blown at the mouth of the Rondout Creek at 10 o'clock last night.

Yesterday John Henyon caught in the Hudson River, near the Esopus Meadows, an eel that weighed four and a quarter pounds.

[From the Poughkeepsie News-Press.]

Benjamin Porter exhibited here yesterday the queerest-looking fish that has been seen in these parts this year. It was about 14 inches in length and a dorsal fin extended along its back from its neck to the tip of its tail. With the exception of a row of scales running the whole length of the sides of the fish, the skin was like that of a bull-head or eel, only being of a light tan color. It was caught in the Hudson River by a Glasco fisherman.—KINGSTON FREEMAN.

Editor News-Press: The "queerest looking fish" caught in the Hudson River by a Glasco fisherman is a German carp. Yours very truly, A. ROOSEVELT.

A LETTER FROM "OUTIS."

INTERESTING NOTE AND COMMENT FROM NEW-YORK CITY.

Mrs. Mary Logan and Her Ways—Mrs. Morton as a Society Lady—Families of Colonial Distinction—A Notable Collection of Articles of a Distinguished Soldier.

Probably the most popular woman this side of the Rocky Mountains is Mrs. Mary Logan, widow of General John A. Logan, and a fair daughter of the State of Illinois. Every one has a pleasant word for her, and I doubt if the person could be found who would say anything to her disparagement. Her friends are legion, and those who have had the good fortune to bask in the sunlight of her presence swear eternal allegiance to the widow of gallant "Black Jack" Logan. Men and women "rant and tear" over the personal magnetism of this man and that, but what more could one ask for than a lovely, loveable woman, just passing the zenith of life, and going down the valley with a cheering smile and an encouraging word for all fellow-travelers. Truly "an old age serene and bright," like a hoary head is "a crown of glory," and Mrs. Logan is deserving of all the praise, honor and glory accorded her. She is still the same winsome woman of five or six years ago, when her wifely pride in the achievements of her husband kept her thoughts and energies most actively employed, and she still wears the coronet of gray hair surmounted now by a widow's cap, giving a charm to the fresh face beneath it. Mrs. Logan has always been considered a splendid manager, and during the General's life-time it was she who held the purse-strings. To give you an illustration of her wonderful business capacity, I am going to tell you how she came into possession of "Calumet Place" and managed to furnish it most artistically with very little ready capital. She chanced to hear that an old country place at the head of Fourteenth-street, in Washington, originally owned and occupied by an old family by the name of Stone, was to be divided into lots and sold. The old homestead, probably built a century or more ago, struck Mrs. Logan's fancy, and having a keen eye to business, looking ahead a few years, and seeing that property in that locality must largely increase in value, she made an offer for the old house and purchased it at a good deal less than its actual value. She now possessed her castle, and the next point was to procure furniture for this immense establishment. She had literally nothing to commence with. To be sure General Logan had been in political life at the Capital for years, but they had never felt able to purchase a home and their lives had been spent in boarding houses. Mrs. Logan put on her thinking cap again, and having a great fancy for the antique, which just about that time was getting to be the rage, she determined to furnish her home in that style as much as possible.

And now, good readers of THE FREEMAN, how did she go to work? Did she come to New-York and interview a Sypher, or did she go to a fine shop, like Zimmerman's in Washington, where the antique can always be found in profusion, but where spindle-legged side-boards and old-fashioned, high-post bed-steads always command the highest prices? No, she did neither, but she went on a tour of investigation on her own account, and coming across a little shop in the most out-of-the-way part of the town, what we call in New-York "the slums," she espied several pieces of furniture which her practiced eye told her, if scraped and carefully rubbed down, would be fit to adorn a palace. She then had a distinct understanding with this second hand dealer that she would take everything in the line of old-fashioned furniture he could obtain. In this way "Calumet Place" was furnished, and one would be surprised to learn at, comparatively speaking, how little expense. Here and there one sees a flag or a touch of some bright color, and in the large hall the bereaved widow has placed for her especial enjoyment and pleasure everything she possesses connected with her husband, or identified with his life. It would naturally be one of the most interesting collections of articles associated with the distinguished career of a soldier and politician in the United States. A few years have passed by, and Mrs. Logan owns to-day a most beautiful home, surrounded on every side by pleasant neighbors, and "Calumet Place" is regarded as one of the most desirable and valuable pieces of property within the limits of the District of Columbia. Mrs. Tucker, wife of Major Tucker, of the Army, and Mrs. Logan's only daughter, lives with her, and occupied the house during her mother's absence in Europe, where she has been traveling for the past year, chaperoning the daughters of George W. Pullman, the man of parlor-car fame.

While I am on the subject of popular society women, I must not pass by Mrs. Levi P. Morton, the wife of our popular citizen and Vice-President. Society in Gotham has many attractive women who would grace any position in this land or at any foreign court, but I think it would be difficult to find a more perfect representative of the best American type of women than Mrs Morton. Before her marriage to Mr. Morton she was a Miss Street, of Poughkeepsie, the daughter of very prominent man, and her mother, whose maiden name was Kearny, belonged to the same family as our gallant General "Phil" Kearny, and was nearly related to him. The Kearnys were a well-known New-York family, and inter-married at an early period of our history with the Watts, a colonial family of distinction, whose sympathies, notwithstanding their distinguished British relatives, were decidedly anti-Tory. John Watts, who was one of New-York's most distinguished citizens some 50 years ago, and whose residence was in the lower part of Broadway, was a member of this family, and the founder of the Leake and Watts Orphan Asylum, the ground of which has been recently purchased for the erection of the mammoth Episcopal Cathedral. Mrs. Morton is the second wife of the Vice-President, he having married early in life a Vermont woman, who lived only a few years, and died without children. By his present wife he has five children, all girls, ranging in age from six or seven to 14. In purchasing a house for occupancy for the next four years in Washington, where Mr. Morton will preside over the United States Senate, and add to the dignity of that august body, both Mr. and Mrs. Morton considered the comfort and convenience of the youthful members of the family. These happy little girls, born with a golden spoon, and "reared in the lap of luxury," have always been accustomed to have their own separate apartments, and in Washington, in the superb establishment the Vice-President has purchased, their tastes will be similarly indulged. I think a short history of this house might prove of some interest to the readers of THE FREEMAN. It is most beautifully situated upon an eminence at the intersection of Rhode Island-avenue, Sixteenth-street and Massachusetts-avenue, and looks directly out upon the equestrian statue of the hero of Lundy's Lane, General Winfield Scott. The house was originally built some 10 years ago by Lieutenant Brodhead, of the United States Navy, who married a rich woman, Miss Willis, niece of the poet, N. P. Willis. It was his ambition to own the finest house at the Capital, but during the erection he became financially involved, and was obliged to part with it upon its completion to Professor Alexander Graham Bell, who made it his home for about five years. It then became a social center, where Mrs. Bell with her scholarly husband dispensed the hospitalities for which they are so far-famed. Here they continued to reside, several little children making their entree into the world, until one cold, bleak night, a winter or two ago, when the house was discovered to be on fire, and Mrs. Bell and her little ones barely escaped with their lives, taking refuge at the house of a neighbor. From that day Mrs. Bell took a strong dislike to the house, and it has remained vacant ever since. It is a superb establishment for entertainments, and I doubt if its superior could be found in New-York or any other large city. The first floor occupies at least 150 feet in depth, and is divided into the drawing-room proper, an art room and a dining-room, 24x36 feet. I hear Mr. Morton has placed this palace in the hands of a first-class decorator, and in the autumn when the family are ready to occupy it, it will be an establishment second to none in the land.—OUTIS.

Scrofula Humor.

"My Daughter's Life Was Saved."

"In regard to my little daughter, whose life was saved, as we believe, by Hood's Sarsaparilla, I would say that before she was six months old, scrofula sores began to appear on different parts of her body, and in a short time she had 7 running sores. Two physicians were called, but they gave us no hope. One of them advised the amputation of one of her fingers, to which we refused assent. Our attention was called to Hood's Sarsaparilla, and we began giving it to her. A marked improvement was noticed after she had taken only one bottle, and by a continued use of it, her recovery was complete. And she is now, being seven years old, strong and healthy. The other members of my family have been greatly benefited by Hood's Sarsaparilla, and I recommend it as an excellent blood purifier." B. C. JONES, Alna, Lincoln Co., Me.

Scrofula in the Eyes.

"My daughter suffered terribly with sore eyes, caused by scrofula humor. We were obliged to keep her out of school for two years. We had medical attendance, but she failed to gain relief. At last, knowing that Hood's Sarsaparilla had cured my mother of rheumatism, and believing it must be good for the blood, I concluded to have my daughter try it, and it has entirely cured her." CORNELIUS YEAGER, Marshalltown, Iowa.

For Violating the Excise Law—The Jewish New Year—In Surrogate's Court—Local Branch of State Charities Aid Association—Some Deductions, Etc.

During the past week evidence has been obtained against several saloon-keepers who have been selling without licenses. Suits will be brought against them. One or two dealers who have been selling on Sunday have also been detected.

The following has a local application:

People when they write, no matter to whom, or for what purpose, ought to get into the habit of putting in the stops where they belong. If they are slovenly and careless in this particular, those they write to will often make mistakes in understanding their letters. Printers commit great blunders sometimes, just because the authors they have to deal with either do not point their manuscripts at all or point them wrong. The worst mistake resulting from bad pointing that we ever heard of, was something like this: A lady in Massachusetts had a husband who was about making a sea voyage, and she wrote a note and gave it to her minister to read on the Sabbath, in which she meant to say, "A member of this congregation going to sea, his wife desires prayers for his safety." But instead of reading it thus, on account of the stops being used wrong, it was read in this manner: "A member of this congregation, going to see his wife, desires prayers for his safety."

To the foregoing this may be added: "Do not write on both sides of the sheet of paper!"

On Sunday two young men went driving on the Saugerties Road in a rig hired at Murphy's livery. The next morning the horse was found dead near a telegraph pole and the wagon badly damaged. The horse ran head-first into the pole, and was killed. The young men say that they do not know how the accident occurred, as they fell out of the wagon before it happened. They managed to get a "lift" home, but left the harness behind, and that has disappeared. The manager of the livery says somebody has "got to pay." One of the young men was arraigned before Justice McNamee in Eddyville this forenoon. The case was adjourned until next Tuesday. A settlement may be effected before then.

To-morrow evening will bring to a close the Jewish year 5649, and the New Year 5650 will be inaugurated. Thursday, the first day of the first month of the year, is called by Jews Tishri. On that day hoshannas will be sung in the various synagogues. The Hebrew must celebrate the beginning of a new year twice in a year. The business year begins in January, and in the month of Tishri the year of the Jews' faith is begun. For years the Jewish New-Year has had the significance of merely a day of preparation for the year's work in religious channels.

Last night a Downtown physician had an experience that he will not soon forget. Two women and a man, the latter so intoxicated that he could hardly walk, awoke the doctor at a late hour. One of the females was indisposed. Then the trio said they desired to cross the Rondout Creek *en route* to their home in Port-Ewen. The ferry-boat had stopped running, and the doctor, to get the party off his hands, secured a small boat and took them across. The trip was one fraught with danger. The drunken man several times just missed upsetting the boat.

In Ulster Surrogate's Court the will of Jonathan Caverly, town of Marlborough, has been proved and admitted to probate. Witnesses A. D. Lent and William E. Wilcox. The will gives to the wife Ella $1,500; to Luther P. a wood lot of 15 acres; to Abner W. and Dora Louisa Rickley the remainder of the real and personal property. Abner W. and Luther P. Caverly, Executors. The will of Jacob Elting, of Clintondale, proved and admitted to probate.

The members of Weiner Hose Company are making extensive arrangements for their fair, to be held on October 30 and 31 and November 1 and 2 in the Academy of Music. Many prizes will be voted for, among them being a lamp to the most popular conductor on the Ulster & Delaware and Wallkill Valley railroads. A large number of the lady friends of the company are working hard to make the fair a success.

On Thursday Venus will be in conjunction with Saturn. Four days later Venus will overtake Mars, and there will be another pretty spectacle for early risers. The conjunctions, however, will not be very close and consequently will not possess the interest that attached to the meeting of Mars and Saturn.

The funeral of John VanGaasbeek, held at the house this afternoon, was largely attended. The members of Kosciusko Lodge of Odd Fellows, of which the deceased was a member, followed the remains to the place of interment. Mr. VanGaasbeek was one of the oldest members of that lodge.

Michael Jersen, who tills a farm near the Red House, was in town to-day, and he told of a turtle he found in one of his fields yesterday that had the date 1705 on its back. Jersen exhibited a flint arrow head which he said was once on the end of an arrow shot from a bow by an Indian.

A coal-shoveler on the Island Dock here to-day was searching for a fellow-workman. Near the Delaware & Hudson Canal Company's lower office about 25 men were standing in a group. "John!" yelled the shoveler. Thirteen of the 25 turned their heads. They were all "Johns."

One of the Downtown nuisances are the crowds of young men who congregate on corners and insult passers-by. Nowhere is the evil more apparent than on Union-avenue. Certain people on their way to church on Sunday are compelled to run a gauntlet of indecent remarks.

Two men who had quarreled and came to blows rushed into the Recorder's Court yesterday forenoon. They both slapped their hands on the desk and shouted in unison: "I was here first; give me a warrant for his arrest." The Recorder told them to leave.

The "cat" of the branch office of THE FREEMAN has of late been working for Ulster County. It has been borrowed by the Deputy Sheriff and locked up in the jail, where it destroys rats, which infest the building.

Benjamin Porter exhibited here yesterday the queerest-looking fish that has been seen in these parts this year. It was about 14 inches in length and a dorsal fin extended along its back from its neck to the tip of its tail. With the exception of a row of scales running the whole length of the sides of the fish, the skin was like that of a bull-head or eel, only being of a light tan color. It was caught in the Hudson River by a Glasco fisherman.—KINGSTON FREEMAN.

Editor News-Press: The "queerest-looking fish" caught in the Hudson River by a Glasco fisherman is a German carp. Yours very truly, A. ROOSEVELT.

A LETTER FROM "OUTIS."

INTERESTING NOTE AND COMMENT FROM NEW-YORK CITY.

Mrs. Mary Logan and Her Ways—Mrs. Morton as a Society Lady—Families of Colonial Distinction—A Notable Collection of Articles of a Distinguished Soldier.

Probably the most popular woman this side of the Rocky Mountains is Mrs. Mary Logan, widow of General John A. Logan, and a fair daughter of the State of Illinois. Every one has a pleasant word for her, and I doubt if the person could be found who would say anything to her disparagement. Her friends are legion, and those who have had the good fortune to bask in the sunlight of her presence swear eternal allegiance to the widow of gallant "Black Jack" Logan. Men and women "rant and tear" over the personal magnetism of this man and that, but what more could one ask for than a lovely, loveable woman, just passing the zenith of life, and going down the valley with a cheering smile and an encouraging word for all fellow-travelers. Truly "an old age serene and bright," like a hoary head is "a crown of glory," and Mrs. Logan is deserving of all the praise, honor and glory accorded her. She is still the same winsome woman of five or six years ago, when her wifely pride in the achievements of her husband kept her thoughts and energies most actively employed, and she still wears the coronet of gray hair surmounted now by a widow's cap, giving a charm to the fresh face beneath it. Mrs. Logan has always been considered a splendid manager, and during the General's life-time it was she who held the purse-strings. To give you an illustration of her wonderful business capacity, I am going to tell you how she came into possession of "Calumet Place" and managed to furnish it most artistically with very little ready capital. She chanced to hear that an old country place at the head of Fourteenth-street, in Washington, originally owned and occupied by an old family by the name of Stone, was to be divided into lots and sold. The old homestead, probably built a century or more ago, struck Mrs. Logan's fancy, and having a keen eye to business, looking ahead a few years, and seeing that property in that locality must largely increase in value, she made an offer for the old house and purchased it at a good deal less than its actual value. She now possessed her castle, and the next point was to procure furniture for this immense establishment. She had literally nothing to commence with. To be sure General Logan had been in political life at the Capital for years, but they had never felt able to purchase a home and their lives had been spent in boarding houses. Mrs. Logan put on her thinking cap again, and having a great fancy for the antique, which just about that time was getting to be the rage, she determined to furnish her home in that style as **much as possible.**

And now, good readers of THE FREEMAN, how did she go to work? Did she come to New-York and interview a Sypher, or did she go to a fine shop, like Zimmerman's in Washington, where the antique can always be found in profusion, but where spindle-legged side-boards and old-fashioned, high-post bed-steads always command the highest prices? No, she did neither, but she went on a tour of investigation on her own account, and coming across a little shop in the most out-of-the-way part of the town, what we call in New-York "the slums," she espied several pieces of furniture which her practiced eye told her, if scraped and carefully rubbed down, would be fit to adorn a palace. She then had a distinct understanding with this second hand dealer that she would take everything in the line of old-fashioned furniture he could obtain. In this way "Calumet Place" was furnished, and one would be surprised to learn at, comparatively speaking, how little expense. Here and there one sees a flag or a touch of some bright color, and in the large hall the bereaved widow has placed for her especial enjoyment and pleasure everything she possesses connected with her husband, or identified with his life. It would naturally be one of the most interesting collections of articles associated with the distinguished career of a soldier and politician in the United States. A few years have passed by, and Mrs. Logan owns to-day a most beautiful home, surrounded on every side by pleasant neighbors, and "Calumet Place" is regarded as one of the most desirable and valuable pieces of property within the limits of the District of Columbia. Mrs. Tucker, wife of Major Tucker, of the Army, and Mrs. Logan's only daughter, lives with her, and occupied the house during her mother's absence in Europe, where she has been traveling for the past year, chaperoning the daughters of George W. Pullman, the man of parlor-car fame.

While I am on the subject of popular society women, I must not pass by Mrs. Levi P. Morton, the wife of our popular citizen and Vice-President. Society in Gotham has many attractive women who would grace any position in this land or at any foreign court, but I think it would be difficult to find a more perfect representative of the best American type of women than Mrs Morton. Before her marriage to Mr. Morton she was a Miss Street, of Poughkeepsie, the daughter of very prominent man, and her mother, whose maiden name was Kearny, belonged to the same family as our gallant General "Phil" Kearny, and was nearly related to him. The Kearnys were a well-known New-York family, and inter-married at an early period of our history with the Watts, a colonial family of distinction, whose sympathies, notwithstanding their distinguished British relatives, were decidedly anti-Tory. John Watts, who was one of New-York's most distinguished citizens some 50 years ago, and whose residence was in the lower part of Broadway, was a member of this family, and the founder of the Leake and Watts Orphan Asylum, the ground of which has been recently purchased for the erection of the mammoth Episcopal Cathedral. Mrs. Morton is the second wife of the Vice-President, he having married early in life a Vermont woman, who lived only a few years, and died without children. By his present wife he has five children, all girls, ranging in age from six or seven to 14. In purchasing a house for occupancy for the next four years in Washington, where Mr. Morton will preside over the United States Senate, and add to the dignity of that august body, both Mr. and Mrs. Morton considered the comfort and convenience of the youthful members of the family. These happy little girls, born with a golden spoon, and "reared in the lap of luxury," have always been accustomed to have their own separate apartments, and in Washington, in the superb establishment the Vice-President has purchased, their tastes will be similarly indulged. I think a short history of this house might prove of some interest to the readers of THE FREEMAN. It is most beautifully situated upon an eminence at the intersection of Rhode Island-avenue, Sixteenth-street and Massachusetts-avenue, and looks directly out upon the equestrian statue of the hero of Lundy's Lane, General Winfield Scott. The house was originally built some 10 years ago by Lieutenant Brodhead, of the United States Navy, who married a rich woman, Miss Willis, niece of the poet, N. P. Willis. It was his ambition to own the finest house at the Capital, but during the erection he became financially involved, and was obliged to part with it upon its completion to Professor Alexander Graham Bell, who made it his home for about five years. It then became a social center, where Mrs. Bell with her scholarly husband dispensed the hospitalities for which they are so far-famed. Here they continued to reside, several little children making their entree into the world, until one cold, bleak night, a winter or two ago, when the house was discovered to be on fire, and Mrs. Bell and her little ones barely escaped with their lives, taking refuge at the house of a neighbor. From that day Mrs. Bell took a strong dislike to the house, and it has remained vacant ever since. It is a superb establishment for entertainments, and I doubt if its superior could be found in New-York or any other large city. The first floor occupies at least 150 feet in depth, and is divided into the drawing-room proper, an art room and a dining-room, 24x36 feet. I hear Mr. Morton has placed this palace in the hands of a first-class decorator, and in the autumn when the family are ready to occupy it, it will be an establishment second to none in the land.—OUTIS.

Scrofula Humor.

"My Daughter's Life Was Saved."

"In regard to my little daughter, whose life was saved, as we believe, by Hood's Sarsaparilla, I would say that before she was six months old, scrofula sores began to appear on different parts of her body, and in a short time she had 7 running sores. Two physicians were called, but they gave us no hope. One of them advised the amputation of one of her fingers, to which we refused assent. Our attention was called to Hood's Sarsaparilla, and we began giving it to her. A marked improvement was noticed after she had taken only one bottle, and by a continued use of it, her recovery was complete. And she is now, being seven years old, strong and healthy. The other members of my family have been greatly benefited by Hood's Sarsaparilla, and I recommend it as an excellent blood purifier." B. C. JONES, Alna, Lincoln Co., Me.

Scrofula in the Eyes.

"My daughter suffered terribly with sore eyes, caused by scrofula humor. We were obliged to keep her out of school for two years. We had medical attendance, but she failed to gain relief. At last, knowing that Hood's Sarsaparilla had cured my mother of rheumatism, and believing it must be good for the blood, I concluded to have my daughter try it, and it has entirely cured her." CORNELIUS YEAGER, Marshalltown, Iowa.

N. B. If you decide to take Hood's Sarsaparilla do not be induced to buy any other.

Sold at this price only to Subscribers of The Freeman.

This edition is carefully printed, on good paper, from new plates, in leaded nonpareil type. In form it is a reproduction of the famous "Plum Pudding" edition that sold for $50.00.

The size of the page of type is 4x6½ inches; the outside measurement 5x7½ inches, making a neat pocket volume.

The fifteen volumes contain 5,200 pages, and average about 350 pages each.

The binding is wire stretching of the best quality, and a far superior to that of 50-cent books. If they were sold for $1.00 each, this work could not be better done. The covers are paper, of neat design.

There is nothing common about these books. The very cheapest of the cheap library editions costs five times the price and cannot be compared with this.

No one who sees them can credit the statement that they cost only $1.00, or understand how they can be sold at that price.

They will be delivered

Free of all Expense

to all city subscribers, and mailed free direct from publishers to out-of-town subscribers.
